## SENATOR TALBOT TELLS WHY SHOE PINCHES IN WEST

Under Reciprocity Strain of Financial Conditions Would Have Been Less.

### FARMERS WOULD HAVE HAD BETTER REVENUE

East Would Also Have Benefitted From Increased Purchasing Capacity.

"The present government at Ottawa is not altogether unresponsible for the present financial conditions within the dominion," declares Senator Talbot, one of the representatives of Alberta in the Canadian senate, who is in the city today. While Senator Talbot admits that there is a general disposition on behalf of the public, especially that part of the public which does not actively interest itself in politics, to blame the administration when everything does not go well, he says, there is a very real sense in which the present government is identified with the stress which has fallen upon the trade and commerce of the dominion.

**10 Cents More Per Bushel.**

The senator takes the view that financial conditions in Canada might have been very much better if the reciprocity pact had gone through. "Ten cents a bushel extra on 100,000,000 bushels of wheat marketed by western Canada would make a very considerable difference to the western farmers' revenue, not to speak of the increased price for cattle and hogs and other products of the farm. The west would have been infinitely better off under any conditions had the reciprocity pact gone through, and in the present condition of the money market the ready cash obtained by the western farmer from the markets across the line would have been especially helpful. The good would not only have accrued to the west, but to the east also. The west is a good buyer—some might think too good at times—and the prosperity of the west would have been reflected in the orders sent to the east.

"It is true that the western farmer is experiencing, under the Wilson-Underwood tariff, some measure of the benefits that would have resulted from the reciprocity agreement, but it is not true to say that therefore what we desired to accomplish by the reciprocity pact has been accomplished by other means. We would have got better prices for our wheat and other crops as well as for our beef and hogs if reciprocity had gone through. The fact should not be lost sight of also, that the better prices that the farmers of western Canada are now getting for cattle and hogs are being got in competition with the rest of the world, whereas under reciprocity Canada would have enjoyed an advantage over other nations."

**No Election This Year.**

Senator Talbot does not anticipate a general election this year.

"I thought there would have been until the Manitoba elections took place," he said. "Now I think the dominion government will hang on to office as long as possible and by a liberal use of the public funds endeavor to strengthen their position before the time limit of the present parliament expires. The west will not get its increase of senate representation until after the next election. In regard to the commons redistribution bill, liberals bought for one member for the city of Edmonton and one for the Edmonton district, instead of having the city divided as it is at present; but R. B. Bennett wanted Calgary divided up in this fashion, so that, to be consistent, the committee had to divide Edmonton too. That is intended to handicap the government's opponents, but it might have been made worse than it is."

Senator Talbot is visiting his daughter and his son, Dr. Percy Talbot, provincial veterinarian.

## BALLOONS ARE FORCED TO DECEND TO KEEP FROM BLOWING TO SEA

London, July 20—Three of the 24 balloons which started from Paris yesterday in the race for the grand prize of the French Aero club, landed today on the Welsh shore, having crossed the English Channel before a favorable breeze. They were obliged to descend in order to avoid being driven out to sea.

Spire, one of the pilots, in jumping from the basket of his balloon, fractured a leg and sustained other injuries. Marcel Foucalt and Jean Laurencau, two French aeronauts, lost their balloon, which blew away to sea. Ernest Demuyter and Albert V. Lebaick, two Belgians, landed safely with the third craft.

## CHALMERS SUBMITS LENGTHY REPORT ON POWER OFFER

Maintains That Efficient Service Will Require Maintenance of Subsidiary Plant

### GIVES POWER COMPANIES FOUR WEEKS MORE TIME

Recommends That City of Edmonton Be Permitted to Share General Profits

With comprehensive recommendations, Commissioner Chalmers this morning submitted his report on the power offer of Sanderson & Porter. In the opinion of Mr. Chalmers no dependence can be placed on any electric energy, the source of which is located any great distance from the city, involving long transmission lines, and he suggests that in order to secure an uninterrupted service it will be necessary to maintain a steam standby plant in the city. He therefore suggests that Sanderson & Porter, as well as other bidding power concerns, be given four weeks from July 21 in which to submit offers, which shall include in the unit price the operation and maintenance of a subsidiary plant in the city, the cost to include annual interest and sinking fund charges incident to the investment in the plant at present owned by the city. He suggests, also, that the city retain ownership of its present plant, and that the city shall share in the profits which may accrue in excess of eight per cent. yearly, and that the city shall not exercise any option to purchase any plant which may be built by the power company receiving the city contract, for the first 20 years. It is also recommended that the city of Edmonton shall have prior claim to all power developed, and that no power shall be sold to other consumers at a less rate than that charged to the city, and that the city shall pay for only the amount of power which it consumes.

The commissioner recommends the following terms of agreement:

(a) A statement of their financial backing, and amount thereof, endorsed by a responsible banking institution.

(b) A certificate of title or lease, permits acquired, and applications made, or contracts of all thereof, of all water and power rights they are in actual possession of such documents to be confirmed by the government issuing the same.

(c) All plans, profiles, levels and gaugings covering the development contemplated, as made to date.

(C) The head proposed to be developed.

(e) The length of time a study has been made of the site of the proposed development.

(f) A brief history of developments of similar size and conditions constructed to satisfactory completion by the applicants or their engineers.

(g) The name of the engineers who propose to carry out the work.

(h) The ultimate maximum amount of power they guarantee to develop for the continuous delivery from the stream at minimum flow.

That in order to be considered by the city, all offers submitted agree to embody the following:

8. That the city audit all construction accounts from the inception to the completion of the work.

4. That the company agree not to capitalize by bonds, stock or otherwise in excess of the actual construction costs as determined, without first securing the consent of the city council.

5. That the city do not exercise any option of purchase for the first 20 years, but that the city participate in all annual profits over and above eight per cent net, and that the city have the right to audit, when desired, all operating accounts of the company.

6. The contract to cease and determine at the period of 25 years from three months after first full operation of initial development.

7. That the bidders state the penalty they will agree to pay the city for interruption of service.

8. That the city will be held harmless against any suit or process at law arising from any cause whatsoever in connection with service or otherwise.

9. That the plant will not be disposed of or transferred in whole or in part by the parent company without the consent of the city.

10. That the city shall have the prior option at all times to purchase or acquire holdings either in stocks or bonds

(Continued on Page 9.)

## HINDUS ERECTING FORTIFICATIONS ON KOMAGATA MARU

Spend the First Day Carrying Up Chunks of Coal for Immediate Use as Missiles and Generally Making Ready for Another Attack—Authorities Planning Raising of An Overwhelming Force So That Natives Will Be Overpowered.

Vancouver, B.C., July 20.—A night marked by ceaseless watching on the part of the immigration officials in their patrol tugs and launches, passed fairly peacefully in the vicinity of the Komagata Maru. Having repulsed the police early Sunday morning the Hindus spent the first day of the week in erecting fortifications on board the ship, carrying up chunks of coal for immediate use as missiles and generally making ready for another attack. It is now proposed, in order to ensue that the next step against the Hindus may be certain of success, to bring the government cruiser Rainbow from Victoria and with reguar troops from Esquimalt and other men of the permanent forces, assisted probably by the local police, to provide such an overwhelming force that the Hindus will be overpowered. Part of a new crew for the Rainbow, consisting of British tars sent from Devonport, England, and a contingent from the Niobe, is due to arrive here tonight and it is possible that they will be met by the Rainbow in Vancouver. The general plan appears to be to go along side with the cruiser which will afford an efficient fighting base and to pour into the Hindus, ship men so quickly that resistance cannot last for more than a few minutes. The authorities think that the trained men of the regular troops under Colonel Roy, at Esquimalt, assisted by the newly arrived tars, will be able to cope quickly and efficiently with the situation.

The cruiser Rainbow will leave Victoria at 10 tonight and will be in Vancouver early tomorrow to take aboard her new crew and proceed with the investment of the Komagata Maru.

## SERVICE PROMISED TO LAC STE. ANNE

Canadian Northern General Manager Has Talk With Peter Gunn.

### TO TOLLERTON THIS FALL

"Y" Must Be Built Where Engines Can Be Turned—Washouts West.

The Canadian Northern railway will inaugurate a train service between Edmonton and Lac Ste. Anne, on its main line west, as soon as a "Y" can be put in at the latter place, where there is already a station.

It will be remembered that the railway commission, at its sitting here recently, made an order that the company must run trains on the main line west of Edmonton, at least as far as Lac Ste. Anne, inside of six weeks.

The company intended to have trains operating as far as Tollerton, the first divisional point, about 125 miles from the city, before this, and would have had it not been for the extraordinarily wet season, with the large number of mud slides, washouts, and so on.

The six weeks had more than elapsed and still there was no train service, even as far as Lac Ste. Anne, last week when General Manager M. H. Macleod visited the city with other officials last week.

Peter Gunn, M.P.P. for Lac Ste. Anne, learned of the visit and made it a point to see the railway officials that did, and as a result is able to announce that Mr. Macleod promised to have a "Y" put in at Lac Ste Anne, so that engines can be turned there. West of that no passenger trains will be run at present, but as soon as the necessary facilities have been installed they will run as far as Lac Ste. Anne.

The work will be proceeded with at once. It is probable that early in the fall a service will be given as far as Tollerton at least.

### SUFFRAGETTE HOPES TO EXPLODE HER NEXT BOMB IN THE POLICE COURT

London, July 20.—"The next bomb I explode will be in the police court and I hope it will be this one."

This was the parting shot from Annie Bell, militant suffragette to the magistrate at Westminster as he committed her for trial today on the double charge of attempting to destroy, on May 10, the Metropolitan tabernacle in South London and on July 12, the old church of St. John, the Evangelist.

**Two Bodies Unrecovered**

Port Stanley, Ont., July 20.—Two young men, names and addresses unknown, were drowned off Richard Reach here yesterday afternoon in full view of hundreds of cottagers, when their canoe capsized in a heavy sea. Neither of the young men could swim a stroke and they sunk for the third time before anything could be done in the way of rescue. Neither of the bodies had been recovered up to a late hour last night.

## OFFERS HUNDRED PLUNKS FOR FIVE

For Nearly Three Hours Today Edmontonians Refused Big Bargain.

### OIL BROKER MAKES WAGER

Tall, Thin Individual Shows That People Are Not Hard to Satisfy.

Offering a brand new one-hundred-dollar bank bill for the comparatively small sum of $5, Michael Middlesex stood on the corner of First and Jasper for almost three hours this morning before anyone accepted his offer, or rather called his bluff. He took the position a few minutes after nine and was just about to go away for lunch, thinking that the people of Edmonton were too hard to suit, when a tall, thin man came up after looking the $100 bill over, pulled a five-spot out of his jeans and would have traded, had not the other moved away with his money.

It is stated that Middlesex was an oil stock salesman and had made the statement that Edmontonians would not buy hundred-dollar bills for $5 apiece. Another oil man offered to bet that he would not offer such a bargain for half a business day. A bet was made then and there and this morning Middlesex (almost) won.

### REPORT OF BUILDING INSPECTOR REFLECTS CONTINUED EXPANSION

Continued expansion of the city of Edmonton is reflected in the weekly report of the inspector of buildings for the week ending July 18.—During the week 60 permits were issued, involving the expenditure of $227,205, as compared with 63 permits issued during the previous week, involving the expenditure of $145,025, and compared with 42 permits during the same week a year ago, representing the investment of $96,675. The total number of building permits issued this year is 1,825, shewing new buildings and improvements in the aggregate of $3,994,427, compared with 2,105 permits a year ago, involving the expenditure of $6,720,680.

### HUERTA PRETENDS NOT TO BE ALARMED, BUT OTHERS NOT SO SURE

Puerto, Mex., July 20—General Huerta today shrugged his shoulders and smiled contemptuously at the idea that the force of the constitutionalists, known to be a short distance from here, would dare to attack this city.

The military companions of the fugitive, former dictator, however, did not display the same degree of confidence, and an extended line of outposts was maintained today which prevented the constitutionalists from approaching nearer.

## CHIEF INSPECTOR IS NEW POSITION BY COMMISSIONERS

Duties Cover All Public Works and Report is to Be Made Direct to Board.

### A. J. McLEAN APPOINTED SALARY $250 PER MONTH

Some Opposition to Creation of Position and it is on Probationary Basis.

The board of city commissioners today created the position of inspector of inspectors, the proposition receiving the sanction of the entire board with the exception of Commissioner Saunders. By the same vote, A. J. McLean was appointed to the position, on recommendation of Commissioner Booth, on probation for a period of 90 days commencing August 1. The position will carry a salary of $250 per month. The duties of Mr. McLean will be to act as inspector for the board of commissioners on all public work, to check up work in progress, to report inefficiencies in every department of city work outside financial, and to submit a verbal or written report to the commissioners every Monday morning.

Commissioner Saunders opposed the creation of the position and the appointment of Mr. McLean, stating that Mr McLean had held a similar position in one of the departments for the past three or four months and Mr. Saunders had never been able to ascertain that Mr. McLean had accomplished any service to the city.

It was the opinion of Mayor McNamara that one man could not possibly inspect all city work and that to do so such an inspector would have to be omnipresent. The mayor said he could not see how a general inspector could be of much service. Commissioner Chalmers was of the same opinion.

Commissioner Booth maintained that there was urgent need of a general inspector to observe and report on inefficiencies and to act in a suggestive capacity to the commissioners concerning conditions throughout the city, covering hundreds of details which otherwise would come to the attention of the board only in a roundabout way and often too late for remedy.

There was some discussion on the proposition of placing the incumbent of the position on a daily basis, but the motion to place it on the monthly payroll prevailed.

A communication was received from C. G. Newell, barrister, protesting against the destruction of trees, by the street department, between the sidewalk and fence in front of his residence on Connaught avenue, Glenora. Mr. Newell informed the board that although he had received permission to construct his own sidewalk, with the idea of preserving the three trees, 45 feet in height, men from the street department came along and under the direction of the foreman cut down the trees. He stated in his letter that the men who did the cutting had informed him that prior to using the axe they had protested to the foreman, but the latter had insisted on the destruction, that he did not care, as the trees belonged to the city and must go. The matter was referred following comment by Commissioner Booth that undoubtedly an outrage had been committed and it was the sentiment of several of the commissioners that the foreman who ordered the destruction of the trees was not fit to hold his position.

The submitting of a bid for printing the voters' list at a cost of eight cents a line brought from Mayor McNamara the comment that the master printers of Edmonton had organized one of the greatest trusts, and that while having entered into an agreement with the board of trade to do this class of city work at a cost not more than 10 per cent. above eastern prices, they were charging a price from 200 to 300 per cent. greater. The matter was referred.

A request was received from R. C. Chown, superintendent of the stores and works department, asking for an increase in wages for four of the employes of his department, basing the request on the statement that the clerical force has been reduced with a saving of $300 a month. The increases asked for aggregate $50 a month. The request was denied.

The matter of paving Tenth street from Jasper avenue to Saskatchewan avenue, again came up for consideration and was disposed of by deciding to again advertise for tenders, based on the change of grade from that mentioned in the first advertisement.

Notice was received that the new city garage had been turned over to the commissioners, and the board directed that it be considered as under the charge of the operating department. It was also decided that the city ambulance should be stationed in the new building, although to remain in the service of the police department, and that the salary of the driver should be paid from the police fund.

## WARRING NOTE IS INTERJECTED INTO PEACEFUL INTERLUDE

Lawrence Gillen, Nationalist Member of Commons, Asks if There Was Any Precedent for the Premier Advising the King to "Place Himself at the Head of a Conspiracy to Defeat the Wishes of the House."

Toronto, July 20.—A special cable from Belfast today says:

"A large American yacht is reported to have been seized by destroyers in Buntomport Bay, Donegal, whilst running rifles for Irish volunteers. The rifles, it is estimated, numbered 10,000.

There is much excitement in Tyrone over the rumor that that county is to be included in the home rule area. The Ulster volunteers to the number of 10,000 will put up an independent resistance.

Leave of absence for volunteers has been stopped save under exceptional circumstances."

London, July 20.—Premier Asquith, at the opening of the house of commons announced that King George, "in view of the grave political situation, has considered it right to summon a conference of representatives of the political parties, both British and Irish, to discuss the outstanding points of the problem of Irish government."

The premier added that the Right Hon. James Lowther, speaker of the house of commons, would, at his majesty's request preside over the conference.

In view of this development of the situation Premier Asquith said he would not ask the house to discuss today the bill to amend the Irish home rule bill.

The invitations to the conference have been accepted by two representatives each of the regular opposition, of the Ulster unionists, of the Irish nationalists and of the government.

Premier Asquith said he hoped the meeting of the conference would begin tomorrow.

Andrew Bonar Law, leader of the opposition, on its behalf, remarked that it had "loyally accepted the command of his majesty."

John Redmond, leader of the Irish nationalists, scarcely appeared to regard the proposed conference as attractive. He said:

"My colleagues and myself take no responsibility for the policy of calling this convention, and I do not think I am called on to express an opinion as to whether the result will prove useful or the contrary. The invitation to John Dillon and myself is in the form of a command from the king, and as such, we at once obeyed it."

Lawrence Gillen, a Nationalist member, interjected a warning note into otherwise peaceful interlude by asking if there was any precedent for the premier advising the king to "place himself at the head of a conspiracy to defeat the wishes of the house."

The question was ignored and the house then proceeded with other business.

Premier Asquith announced in the house of commons today that the government would take the second reading of the home rule amending bill on Monday next.

## DOUBLE DROWNING ACCIDENTS OCCUR

Two Ontario Towns Have Sunday Bathing and Boating Fatalities.

### NAMES OF TWO UNKNOWN

Surveyor Meets End Trying to Save Man Clinging to Canoe.

Oakville, Ont., July 20.—Two drowning accidents occurred here yesterday. The first victim was Charles Grinham, a young Englishman. He dived into the harbor and never came up. The body was soon recovered but all efforts at resuscitation failed.

The second victim was W. N. Allen, a member of Toronto-Hamilton good roads survey, whose relatives reside at Nelson, B.C. Allen attempted to swim out to the rescue of a man who was clinging to an overturned canoe. Two rescue boats outstripped him and in trying to regain the shore he sank. The occupants of the canoe were saved.

### FORMER PROVINCIAL SECRETARY SPEEDS IN AUTO TO GIVE EVIDENCE

St. John, N. B., July 20.—Speeding from Fredericton in an automobile, Hon. H. F. McLeod, M.P., former provincial secretary, arrived here today after having missed his train at the capital to be ready to answer the personal charges against him should he be called to the witness stand.

It is probable the premier will be on the stand most of the afternoon though Mr. Carvell maintains his cross-examination should not exceed an hour. At 1:30 the court room was crowded to capacity and people were being turned away.

### MANAGER WILSON OF EDMONTON CAPITAL GOES TO HOSPITAL

W. R. Wilson, manager of the Edmonton Daily Capital, who has been ill for some time, this morning went to the Strathcona hospital for an operation by Dr. W. N. Cendell.

## SHOULD BE HIGH LEVEL BRIDGES

Railways Will Unite to Cross River and Obtain Low Gradients.

### CITIES ABOVE THE BANKS

Low Structures Would Mean Hard Freight Pull for Big Tonnage.

Matthew McLellan, who has been up in the north country most of the spring and summer, believes that all the railways which will build into Peace River Crossing during the next few years will join together, get whatever federal, provincial and municipal aid they can, and build a gigantic high level bridge across the Peace at that point.

"Should the roads go across the river by one or more low level bridges," he stated at the King Edward hotel this morning, "it will mean that the countless millions of tons of freight, besides passengers, which will be hauled into and out of the Peace River country in the future must be hauled first down and then up a massive river bank.

"That will be paramount to going through the Rocky mountains, and I think that is one reason why the different railways which intend to build into the country have not already made arrangements to cross the Peace at once. Railway engineers and managers realize the fact that the day of heavy grades is past and that roads running first up, then down, cannot compete with others which enjoy low gradients.

"It would be a good piece of work if the dominion or provincial government would take up the question at once and thus prevent a great economic waste which must ensue should two or three third of fourth class bridges be built by what would then be third or fourth class roads across the Peace river, not only at the Crossing, but at Dunvegan and other points where it is expected to cross.

"It would be a good thing for the towns or cities concerned for all the railways and the country if the roads would decide at once to do what must be in the minds of their managers, and that is, get together and make arrangements in advance for crossing the Peace, so that none of the work will have to be done oftener than once.

"At Peace River Crossing I think it is now recognized that the city of the future will be above the hill anyway, and that what is now the town will be used for warehouses, docks and such facilities. At Dunvegan I don't think there was ever any doubt on that point and every city of importance in the north will grow as those down here have—on top of the river banks."

# CRUISER RAINBOW WILL ASSIST IN REMOVING HINDUS

**Serious Situation Confronts Dominion Government Immigration Department—Attempt to Board Komagata Maru Repulsed With Shots, and Showers of Coal, Iron Bars and Pieces of Machinery —Large Number of Police are Injured and Forced to Withdraw for Medical Assistance.**

Vancouver, July 20.—A large body of Vancouver police and a contingent of special immigration constables numbering altogether nearly 200 men descended early Sunday morning in the tug Sea Lion upon the Komagata Maru and after grappling her and playing a hose on the infuriated Hindu passengers were beaten back by showers of coal and other missiles. Many of the attacked were injured, some seriously.

Such was the result of an unsuccessful attempt in the midnight hours to rid the harbor of the Japanese steamer and her unwelcome passengers, whose application for entry into British Columbia has been refused by the court of appeals.

A day or two ago the Canadian government decided, as an act of mercy, to provision the Komagata Maru for her voyage back to the Orient at a cost of $9,000. Plans were carefully matured by Malcolm Reid, superintendent of the immigration department here, H. H. Stevens, M.P., and Mrs. W. H. H. Ladner, with the result that at 1.15 this morning everything was in readiness.

A large quantity of provisions were on the tug, together with 125 city policemen under Chief McLennan and upwards of fifty special constables under Captain Warden. The scene as the Sea Lion pulled away from Canadian Pacific railway pier "A" was full of confidence and even hilarity. The policemen had revolvers and the special men Ross rifles. The Sea Lion slowly steamed out to the Japanese steamer, which lies only a quarter of a mile off shore, opposite the immigration headquarters. Upon arriving within hailing distance of the vessel it was seen that every inch of space along the rail and on the deck and bridge was occupied by a Hindu armed with a club or other weapon.

In the bow of the steamer a solid mass congregated, shouting for Mr. Hopkinson, the immigration department official interpreter and called forth a long harangue in Hindustani, the only distinguishable words of which were "shall not come on board."

As the Sea Lion drew level and gradually closed up alongside, her searchlight throwing every swarthy face into strong relief, the Hindus became wildly excited, shouting at the top of their voices and brandishing their clubs.

**Hindus Nonplussed.**

At first an attempt was made to attach a grappling iron to the steamer's rail. The Komagata Maru's side towered above the tug's deck and the Hindus leaned over the side and endeavored to prevent the iron from taking hold.

Finally, however, the grappling hook was successfully placed, whereupon a Hindu bolder than the rest, took an axe and hacked at the rope attached to the iron with such good will that it seemed as if he would succeed in cutting it.

Just as this juncture an officer of the police force appeared in front of the serried ranks of the city police on the lower deck of the tug with a hose pipe and at once the scene underwent a wonderful change. Back and forth and along the picturesquely attired masses of Hindus he played the hose with, at first, astonishing results. Beaten back by the seething water, they retreated in every direction, and for the moment it seemed as though the civic forces had commenced a victorious action.

**A Plucky Rally.**

Only for a moment, however. The next moment a most startling change occurred. Rallying with it must be admitted, considerable pluck, a number of Hindus faced the stream and dashed in a shower of missiles upon the attacking party. This was followed by a tremendous shower of lumps of coal which, in a couple of minutes had completely upset the order which had reigned aboard the Sea Lion. The crowded mass of men upon the decks of the tug were absolutely at the mercy of the Hindus above them and the latter were now the attacking party. For a few minutes the air seemed black with coal, pieces of wood and fire bricks and pieces of iron from what is believed to be the wreckage of the engine room.

All that the police and special constables could do was to bend down with their faces away from the onslaught and endure the punishment without attempting reprisals.

**Numerous Injuries.**

Quite a number of men fell stretched out by blows on the head and in the crowding to that side of the tug further away from the Japanese steamer, Detective McArthur was forced overboard. A special constable named D. Collins, and one of the Hindu interpreters leaned over the side of the tug and dragged the officer aboard again. Inspector McLeod received a blow upon the arm which rendered him helpless. Inspector Wilshire was hit on the head, inflicting a bad wound and causing a stream of blood to flow over his garments. Chief of Police McLennan was badly bruised. Inspector Scott was knocked unconscious from a blow from a brick. Police Constable McCall had two ribs broken and Captain Robertson of the Sea Lion was cut over the eye by flying glass, caused by the breaking of the pilot house windows. Detective Tisdale was badly cut about the head. Messrs. L. H. Taylor and G. L. Minnett were both seriously hurt about the head, the former being almost seriously hurt. Detectives Hicel and Scott were both badly hurt, and there was hardly a man upon the Komagata Maru side of the tug who did not receive an injury of a more or less serious nature. It looked as if a serious catastrophe was about to overtake the Sea Lion and her forces for, naturally enough, everyone on the vessel sought to get away from the missiles, and in doing so crowded to the other side with the result that the tug commenced to list in a very pronounced manner, there being continual cries of "keep to the left or we shall sink," filling the air.

**Pandemonium Reigned.**

The shouts, mingled with the smash of breaking glass and torn woodwork, caused nothing short of pandemonium.

As the minutes passed and there was no cessation in the hurricane of objects that came hurtling from the decks of the Japanese steamer, one angry shout predominated all over the rest, "Get her away from the ship. Why the — doesn't the captain move her?" Eventually the grappling iron, having been unloosened by some venturesome police constable, the Sea Lion, with her injured and angry crowd, slowly and sullenly moved away from the big vessel's side while a yell of derisive and prolonged tom tom playing, shouting and laughter from the triumphant Hindus followed in her wake.

Slowly the Sea Lion made her way back to the dock. Doctors Monroe and Kennedy attended to the wounded as she went and many men of the police force showed the benefits of their knowledge of first aid as taught in the St. John ambulance association by their dexterity in binding up the hurts of their fellows.

**Sunday Passed Quietly.**

Sunday afternoon passed peacefully, although many Hindus in one party near the docks this morning were beaten by white men before help arrived. Chief of Police McLennan is watching the situation closely for fear of riots on shore. H. H. Stevens, M.P., said yesterday afternoon that measures had been taken to effectively bring the Hindus into subjection.

"Do you intend calling out militia?" he was asked.

"I cannot say what we intend doing, but we have a complete program marshed out," he replied. In another quarter it was reported that the cruiser Rainbow would be brought to the rescue of the immigration officials.

It was learned that four Hindus were seriously cut and bruised in the fight. Captain Yamamoto is at his wits end to know what to do, for every time he goes near his vessel his life is threatened.

Many of the missiles used by the Hindus to repel the officers were apparently parts of engine room machinery. How much damage the Hindus have done there, no one knows, but it looks as if the steamer could not, with safety, sail until repairs have been effected. A serious fight occurred late Saturday night amongst the Hindus themselves in the Sikh temple on Second avenue, Fairview. One Hindu objected to certain seditious doctrines being promulgated by a speaker and guns were drawn, but no shots were fired in the mix-up which followed.

Mr. Stevens announced that he had received a telegram from Sir Robert Borden, expressing his thanks to the police for refraining from shooting, in reply to the shots from the Komagata Maru and pledging the full support of the government forces to bring the Hindus into a position where their legal deportation could be accomplished.

**Official Statement.**

Ottawa, July 18.—The following important statement concerning the Hindus at Vancouver was handed out by E. Blake Robertson, acting superintendent of immigration, this afternoon.

"The captain of the Komagata Maru was given until 6 o'clock last night to state whether or not he intended to obey the deportation orders which had been served upon him covering the 350 Hindus on board. Shortly after the hour, he reported that the passengers prevented him from getting up steam and asked for help. About 1 p.m. the chief immigration officers went down to the vessel in the largest tug available, but were unable to gain the decks of the Komagata Maru in the face of the stubborn resistance offered by the Hindus on board, who from all parts of the ship hurled down on the officers, coal, iron bars, pieces of machinery, hatchets and clubs, injuring many and smashing the windows of the tug.

Some shots were fired by the Hindus, but the officers in their anxiety to prevent bloodshed if possible did not return the fire, and at 2 a.m., realizing the difficulty in reaching the decks from the tug, retired and returned to the shore, taking with them 10 injured, among whom was the captain of the tug, suffering with two broken ribs. Fortunately none of the injuries received are likely to prove fatal.

"The self-restraint of the police and immigration officers under great provocation is appreciated and highly commended by the acting minister, Hon. C. J. Doherty.

"While desirous that no unnecessary violence shall be used the government is determined that the law shall without fail, be effectively and rigidly enforced and with this end in view, has authorized the use of the cruiser Rainbow to effect a boarding of the vessel when if necessary to secure control and maintain it, the full number of Hindus will be handcuffed, a proceeding which, in view of their violent actions, is fully justified.

"The government has instructed its agents to deport the rejected Hindus on the Empress of Japan next Thursday, if it appears that deportation by the Komagata Maru cannot be promptly and effectively accomplished. The government is also taking legal proceedings against the masters and charterers of the Komagata Maru."

## ABANDONS EFFORT TO REACH STEFANSSON PARTY AT WRANGEL

Nome, Alaska, July 20.—The ice-breaking steamer Kit arrived here yesterday from a cruise in the Arctic. The captain reported that he tried for 14 days to break through the ice field to reach Wrangel Island and take off the men of the Stefansson expedition, who have ben marooned there since the old whaler Karluk was crushed in the ice last winter. The Kit was unable to approach nearer than 120 miles to Wrangel Island and finally abandoned the attempt.

All information received here is that the Arctic is worse than ever before and that for this reason the revenue cutter Bear, which is to take Captain Robert Bartlett, master of the Karluk, to Wrangel Island, to take off the fugitives, has delayed sailing until more favorable conditions prevail.

# COMMISSION GIVES ORDER FOR SPURS IN H.B. RESERVE

### Property Owners Must Provide Right-of-Way or Money to Expropriate.

### DISTRICT NEEDS TRACKS FOR ITS DEVELOPMENT

### Railway Interests Maintain That Present Freight Sheds Not Large Enough.

Ottawa, July 20.—The railway commission has given its decision upon an application made by the Massey Harris company, the Edmonton City Dairy, limited, Knight and Frost, the Standard Plumbing and Heating company, limited, and Andrew Lee, for an order requiring either the Canadian Northern or the Grand Trunk Pacific railway company, under section 226 of the railway act, to supply and construct suitable spur tracks from the company's main line in the city of Edmonton, being the lane in block 1 and 6, Hudson's Bay reserve at Athabasca avenue.

This application is one which brings into question railway facilities for what is termed the industrial area, lying to the west of First street and south of Mackenzie avenue.

The area affected by the principle which the present application has dealt with, extends from Tenth street to First, the Canadian Pacific freight sheds and yards being situated on the block between Tenth and Eleventh streets.

The applicants desire that the spurs should run directly down the lanes and without cutting through any lands on the subdivision affected.

The railway companies opposed the application on the ground that the traffic has assumed such proportions that the existing freight sheds were insufficient; and that, with a view of increasing local facilities, it was necessary to build new sheds running on the lane in block 1 to a point on the lane on block 4. The effect of this construction would, of course, prevent spurs being run off the C.N.R. track as was done in the case of the spurs constructed in blocks 7, 8 and 9.

The district is one which, as already indicated by the commission at a former hearing, should get the benefit of industrial spurs. The construction of these spurs, indeed, is necessary for the proper development of the district. Without that, the whole scheme of development of the district must fail—at least, to a large extent.

It was pointed out to the property owners that their interests were entirely common, and that, under such circumstances, it should not be very difficult to bring about such an arrangement if the local interests would enable construction to proceed. The construction is entirely for the benefit of the property owners, while the railway companies not only don't want it, but they oppose the application; and if the property owners still desire to obtain the spurs, an order will go for the work as soon as the right-of-way is provided; or, in case the property owners find that they cannot obtain the right-of-way, just so soon as they pay into court a sum of money which the engineer of the board will certify as necessary to enable the railways to obtain it under expropriation proceedings.

## ESTIMATED CROP PRODUCTION FOR PARTS OF EUROPE

Ottawa, July 20.—The international agricultural institute cables the production of cereals as estimated on July 1 as follows: Wheat: England and Wales, 16,447,000 bushels, or 106.2 per cent. of last year's crop; Italy, 172,696,000 or 80.5 per cent.

Oats: England and Wales, 84,548,000 bushels or 98.2 per cent.; Hungary, 84,276,000 or 89.7 per cent.

Barley: England and Wales, 51,092,000 bushels or 97 per cent.; Hungary, 69,856,000 or 87.1 per cent.

Rye: Prussia, 261,672,000 bushels or 99.1 per cent. of last year's crop.

# INTERVENTION OF HIGHER AUTHORITY DEEMED NECESSARY

### Liberal and Unionist Leaders Reach Deadlock in Negotiations Over Ulster.

### MINISTERS DETERMINED STAND BY HOME RULE

### Expected That Debate in Commons Will Be Adjourned Pending Conference.

London, July 20.—The news that King George had called a round table conference of the leaders of all the political parties in the United Kingdom to discuss the crisis in the province of Ulster caused a pleasant surprise today in political circles here. It was felt that a conference under the direct auspices of the king would result in a settlement which even the extremists of both sides in Ireland will be compelled to accept. Premier Asquith and the other political leaders returned to town today but none of them would discuss the latest development of the Irish situation.

The king also curtailed his visit to Spithead and returned quickly to London after reviewing the fleet. He went at once to Buckingham Palace.

London, July 20.—With the last 24 hours the gravity of the home rule crisis has been aggravated in one respect and relieved in another.

When the amending bill is taken up in parliament today, Prime Minister Asquith will make an exceedingly important statement, the precise nature of which is kept secret, but it is believed that it will indicate plainly that if an agreement is not reached on the bill it will be withdrawn and the home rule bill will be placed on the statute books unamended. This would show that a deadlock has been reached in the negotiations of the government with the unionist leaders. Probably the debate will be adjourned after Mr. Asquith makes his statement.

On the other hand, it is learned that the situation inside the cabinet has greatly improved and that in whatever action it takes the cabinet will now be a unit.

But pressure from the king in favor of further concessions to the arrangement has again increased and the king's attitude may lead to the dismissing of the government. The ministers are prepared to face that rather than betray home rule.

The Irish party maintains the position that the proposition to amend the bill so far as to give Ulster counties the right to exclude themselves by vote represents the limit to which national sentiment can go in the direction of exclusion.

This is the exact situation this morning. It is impossible to say what the outcome may be, further than that the home rule bill will surely be sent to the king for his signature, amended or unamended.

**"Statesmanlike Plan"**

The Times, editorially, commenting on the proposed conference, says:—

"In our opinion, it is a wise, proper and statesmanlike step, and more likely to extricate the country, if anything can, from the imminent peril wherein it stands than any other course that could be devised. It is an application though an infinitely more important matter, of the principle which so often has happily been brought into play to end a deadlock in industrial disputes. Intervention of superior, independent and disinterested authority is sought in order to bring the parties together in an amicable way, and by free discussion to come to an understanding.

"In the case of great political parties and of a dangerous deadlock like the present, there is no one who could take that part but the sovereign. The head of the state alone stands in a position of superior authority and prestige and one of absolutely impartiality.

"The event will perhaps bring home to many who have never thought about it, the real and solid public advantages of a constitutional monarchy. It will strengthen the crown to the benefit of the nation."

But while recognizing the fact as the most practical and promising course available, the Times cannot regard the problem as solved and the danger past. It says:

"The difficulties which have driven Mr. Asquith to the present expedient are too great or too deeply rooted to be summarily disposed of by eight leaders sitting around a table."

**King George Anxious.**

London, July 20—The king has called a conference of the leaders of all the parties to seek a solution of the Irish problem. This is the announcement which Premier Asquith is expected to make when the bill amending the home rule bill comes up again for consideration in the house.

The premier's speech on this occasion, indicating how the government proposes to deal with the lords' amendments to the amending bill, is awaited with the deepest anxiety, and it is probable that the house will immediately adjourn the debate on the amending bill indefinitely to allow the negotiations for a settlement to proceed outside of parliament. Premier Asquith has been with the king at Portsmouth during the week-end, and the king's anxiety to get the matter settled resulted in the decision to call the conference.

It is said that the various leaders invited have accepted the invitation, and that the conference will meet at an early date, probably Tuesday, in London. The king will receive the delegates, but will not himself preside over the conference, which it is confidently thought under such exalted auspices will prove successful.

**Lloyd George's Efforts.**

At the same time the ministers are placing great reliance in the persuasive powers of Chancellor of the Exchequer Lloyd George, who has been temporarily shunted from his financial duties to assist the premier in finding a solution for the Irish difficulty.

Chancellor Lloyd George's business is to smooth the path between the Nationalists and Liberals. It is understood that the government is willing to go a considerable way in the direction of meeting the Carsonite demands, but are hampered by the unyielding attitude of the Nationalists.

The chancellor of the exchequer has had several conferences with John Redmond, the Nationalist leader, in an endeavor to find points of common agreement. Mr. Redmond has called a conference of his party for today to hear a report from Jos. Devlin, M.P. for Belfast, who has returned from an important mission in the North of Ireland, and this conference may have an important bearing on the negotiations.

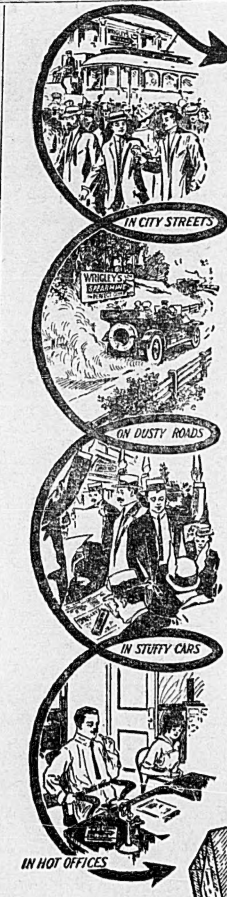

For the moment, Tyrone is the crux of the situation on which neither Nationalists nor the Carsonites are willing to yield.

At a meeting of the executive of the Irish trades union congress and the labor party in Dublin, resolutions were passed urging workers throughout Ireland, including Ulster, to oppose the exclusion of Ulster from the home rule and if a provisional government is set up in Ulster to resist it with all available means.

It is understood that the conference is to assemble in Buckingham Palace tomorrow and that the conferees will consist of Premier Asquith, Chancellor David Lloyd-George, Lord Lansdowne, leader of the opposition in the house of lords; Andrew Bonar Law, leader of the Unionist forces in the House of Commons; John Redmond and John Dillon, the Irish leaders; and Sir Edward Carson and Captain Craig, the leaders of the Ulsterites.

**Railroad Official Shot.**

St. Louis, Mo., July 20.—Felix E. Anderson, assistant of President McCheaney, of the St. Louis terminal railroad association, was shot Saturday by a man who entered hi office and demanded to see the president. Anderson was shot in the left shoulder, but not dangerously. His assistant made a clean get-away after the shooting.

**General Strike Threatened.**

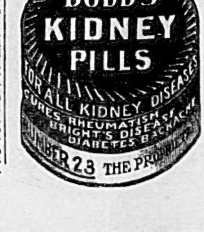

London, July 20.—A general strike of the union members of the several building trades of the city is threatened. In connection with the strike of some local 200 local carpenters, who, demanding a minimum wage of forty cents an hour, have now been out for seven weeks. The union bricklayers will come to a decision on the matter Tuesday night and a general sympathetic strike involving all building trades may be the outcome.

**Cargo of Rifles Seized.**

Donegal, Ireland, July 20.—It is reported that a cargo of rifles, numbering several thousand, which was being conveyed in an American yacht for the Nationalist volunteers, was seized by a British cruiser, which intercepted the yacht Friday night.

**Fortune Goes to Family.**

Winnipeg, July 20.—The will of Frederick W. Heubach, which is to be presented for probate this week, provides for the disposal of his fortune of $750,000 to members of his family.

Sent by Mail, Postage Paid, for 70 Cents and 6 Certificates

Expense Amount of 50c

# WILL SHOW LOVE FOR HUSBAND BY SECURING DIVORCE

Slayer of Gaston Calmette Will Sacrifice Self for Her Husband's Career.

## PALACE OF JUSTICE IS UNDER HEAVY GUARD

Ferdinand Labori, Famous as Defender of Dreyfus, Counsel for Accused.

Paris, July 20.—Mme. Caillaux, wife of the former French premier and minister of finance, was taken yesterday from the St. Lazare prison to the conciergerie adjoining the palace of justice to await her trial, beginning tomorrow, for killing on March 16 Gaston Calmette, editor of the Figaro.

The prisoner was lodged in the cell occupied in 1907 by Mme. Therese Humbert when undergoing trial on charges of swindling the French public out of several million dollars.

Mme. Caillaux's health appeared today to be much better than it was when she was first arrested in March. It is reported that she intends to apply for a divorce after the trial, whatever its outcome, as she is said to consider that by separating from her husband she will show the greatest mark of love for him, because by remaining with him she would be an obstacle to his political career. The trial is expected to last at least five days and probably until Saturday. The space in court usually occupied by spectators is to be given up almost entirely to newspaper men, 140 of whom, from all parts of the world, have been allotted places in the press box. Women are not to be allowed in the public section of the court, but a few places have been reserved for them in the passageway leading from the jury room to the jury box.

**Under Heavy Guard.**

Some commotion was caused today in local circles by the report that the authorities intended to place strong detachments of municipal guards both inside and outside the palace of justice in order to prevent the possibility of disturbances, as it has been stated that the royalists intended making a demonstration.

Interest in the trial increases hourly. Many columns are filled with discussions of the case and rumors that some of the most prominent figures in the political world are to be examined in court. In the testimony of President Raymond Poincare will be read.

**Two Vital Questions.**

The vital legal question in the case is that of premeditation. The prosecution, directed by Procurator General Jules Herbaux, declares that the crime was definitely planned by Mme. Caillaux in order to rid her husband of a formidable opponent. The defence on the other hand, will seek to show that Mme. Caillaux intended only to teach Calmette a lesson and that his death was an accident. Her counsel is Ferdinand Labori, who became famous as the defender of Captain Dreyfus.

The questions to be put to the jury are:

First: "Is the accused guilty of wilful homicide?" and

Second: "Was the homicide premeditated?"

If the jury replies "Yes" to both questions, the sentence must be death. If the reply is "yes" to the first and "no" to the second question without extenuating circumstances, the sentence must be hard labor for life. If extenuating circumstances are admitted, the term must be hard labor for a period fixed by the judges, ranging from five to twenty years.

**Mme. Caillaux is Confident.**

Paris, July 20.—Mme. Caillaux is now a prisoner in the conciergerie, in the lower part of the Palais de Justice, where she occupies a cell adjoining that once occupied by Marie Antoinette. She was transferred to the conciergerie Sunday from St. Lazare prison, where she had been confined since her arrest for the killing of Gaston Calmette, editor of the Figaro.

The trial of Mme. Caillaux begins today. Shortly before noon she will be taken from her cell under escort of two inspectors to the ante-chamber of the court, and will there await the summons of the president of the assize. She will then be conducted to the prisoner's box and the court proceedings will begin.

Mme. Caillaux is maintaining her calm exterior, and today expressed great confidence in the outcome of the case.

**Guarded from Public Gaze.**

To reach the assize court she will be to be conducted through a subterranean passage and by secret stairways and will thus escape the eyes of the curious. She will be allowed to use the enclosed promenade known as "the court of the rubber manacles."

Counsel for the defence has summoned additional witnesses, among whom are seven physicians. They are expected to give testimony regarding M. Calmette's wounds.

In the indictment against the defendant full weight is given to the state of mind to which Mme. Caillaux was reduced by M. Calmette's campaign against her husband, which is designated as "personal and violent." The indictment also recites that the crime was committed with premeditation and it is also around the question of premeditation that the struggle between the prosecution and the defence will be fought.

Louis Albanel will be the presiding Judge.

**Elevator Ready November.**

Moose Jaw, July 20.—Grain Commissioner Jones said here Saturday that he expected the government elevator in course of erection here at the cost of a million and a half dollars would be handling this year's crop by November.

## IS YOUR BACK FULL OF ACHES ALL DAY LONG?

That Stab-like Pain in the Back is Sure Indication of Kidney Trouble.

Mrs. Anna Rodriguez writes as follows from her home in Valencia. "For a long time I suffered with failing strength and nagging headaches. My condition grew steadily worse, my limbs became bloated and shaky. I was sallow and thin, felt rheumatic pains, dizziness and chills. I unfortunately didn't suspect my kidneys and was nearly dead when I discovered the true cause of my sufferings. I read so much about the wonderful health and strength that comes to all who use Dr. Hamilton's Pills that I felt sure they would help me. Such blessings of health and comfort I got from Dr. Hamilton's Pills I can't describe. They speedily put me right, and their steady use keeps me active, energetic, strong and happy. I strongly urge others to regulate and tone their system with Dr. Hamilton's Pills of Mandrake and Butternut."

No greater medicine exists than Dr. Hamilton's Pills for the cure of indigestion, constipation, flatulence, liver, bladder and kidney trouble. Refuse substitutes. 25c per box or five boxes for $1.00, at all druggists and storekeepers, or postpaid by the Catarrhozone Co., Buffalo, N. Y., and Kingston, Canada.

# FAMOUS INVENTOR AND DAUGHTER OF ADMIRAL ELOPING

No Traces Except Brief Halt in Flight Toward Italian Frontier.

## WARRANT IS ISSUED FOR ARREST OF MAN

Question Arises as to Whether or Not He Is Humbug.

Milan, July 20.—Beyond the fact that they made a brief halt in their motor flight toward the frontier, there is no trace of Giulio Ulivi and Admiral Fornari's daughter, Maria Luisa, with whose initial, the famous M. ultra rays were named. A warrant was issued for Ulivi's arrest on the charge of abduction, as the young woman is under age.

Meanwhile a discussion rages as to whether Ulivi is a genuine inventor or one of the most consummate humbugs of the twentieth century. In scientific circles his high attainments in mathematics and electricity are not disputed. There are still some who fondly attribute Ulivi's flight to the eccentricity of his temperament, which could brook no dictation from outsiders as to the conditions under which he should demonstrate the reality of his claim. In fact, however, the skepticism about him is almost universal, and among the skeptics is the world-renowned seismologist, Padre Guido Alfan.

"My faith in Ulivi was first shaken," he says, "when I was admitted to his secret workshop shortly after the bomb exploding experiments in the river Arne. I saw at a glance that the short antennae of the poles used by Ulivi were utterly incapable of transmitting energy over anything like the distance separating him and the Arpe. Under cross-examination, he began to show most extraordinary evasiveness, not to say untruthfulness. Certain other facts led Alfana to write to Ulivi that he must publicly withdraw his patronage from him and that he had also decided to advise Admiral Fornari not to give his daughter in marriage to a man who, having deceived his friends and fatherland, still persisted in deplorable bamboozling.

Ulivi is accused of introducing chemical substances into his bombs to make them explode spontaneously. He never used any bombs but those made by himself and, moreover, he never succeeded in exploding any bombs unless immersed in water. When the police forced their way into his workshop they found a large quantity of the metal sodium and, as every schoolboy knows, sodium in confinement ignites on contact with water.

**Recognized and Arrested.**

Moose Jaw, July 20.—George Isaacs wanted at Brandon since April 10 on a charge of obtaining money by false pretences, was recognized on the street here Saturday by City Detective Stewart and arrested. Provincial Detective Brown arrived from the Manitoba city today and took Isaacs back. The accused had been making local arrangements to open a detective agency in this city.

**Trail Smelter Shipments.**

Nelson, July 20.—Ore shipments to Trail smelter last week were 6,120 tons, making a total for the year to date of 197,000 tons.

# SETTLED STATE SLOWLY COMING IN OLD MEXICO

President Carbajal Orders No Future Executions Without Proper Trial.

## NEW REGIME DOES NOT RECOGNIZE REVOLUTION

Villa Still to Be Reckoned With —Makes Order Opposing Carranza.

Mexico City, July 20.—According to orders issued by President Carbajal to the governors of states and the military chiefs, no one in the future is to be executed without proper trial. This means the re-establishment of constitutional rights suspended by Huerta.

President Carbajal has also ordered that the statue of Washington, which was dragged by the populace through the streets after the occupation of Vera Cruz, shall be at once replaced.

**Can Pass Through Lines.**

Vera Cruz, July 20.—Lieut. Col. Azunza, commanding the federals at the gap, announces that a proclamation has been issued at Mexico City by the minister of war, granting all persons belonging to the so-called revolutionary forces permission to pass through the federal lines and proceed to whatever point they wished, either individually or collectively. The only condition imposed is that they shall not carry arms.

Col. Azunza said that the new administration does not recognize the existence of a revolution and considers all Mexicans on equal footing as citizens.

**Steamer is Held.**

Vera Cruz, July 20.—The steamer City of Tampico, chartered by the Wolvine line, was stopped while leaving Tampico for Galveston and has been held there owing to the refusal of Captain Odfjell to surrender to the constitutionalist authorities Juan Vasquez, a retired general of the federal army and two companions.

The City of Tampico, with a large number of passengers, cleared from Tampico July 16, proceeded to the mouth of the river and discharged her pilot. She was then held up by the port authorities, who demanded the surrender of General Vasquez, and his companions, alleging that they were concerned in the theft of a small sum of money from a resident of Tampico.

Vasquez protested his innocence and declared that the charge had been trumped up for the purpose of getting him ashore and shooting him as a supporter of Huerta.

**Refuses to Give Up.**

Captain Odfjell, after an investigation, felt satisfied the charge was not true and refused to surrender his passengers. He sent a wireless message to Rear Admiral Mayo requesting protection. The admiral declined to intervene, saying that the local authorities were fully within their rights in demanding the surrender of any person accused of violating the laws within their jurisdiction. Captain Odfjell still continuing his refusal to surrender the passengers, the steamer remained under detention. The City of Tampico is flying the Norwegian flag.

**Takes $375,000 From Bank.**

Havana, July 20.—President Huerta bought $375,000 exchange through the Bank of London and Mexico a few days before resigning, according to a passenger on the Alfonso XII., who says he was employed in the bank and purposes to publish a book showing how the various members of Huerta's government managed to accumulate fortunes while in power.

**Villa Still Powerful.**

El Paso, July 20.—Carranza may have his way about the big things, such as to the provisional presidency and the selection of cabinet, but Villa is still a power that has to be reckoned with in the north. This was shown when he announced at Chihuahua that Rodolfo Fierro, the man credited with the murder of William S. Benton, the Englishman, was to be made a brigadier-general in place of Trinidado Rodrigues, who was killed at Zacatecas.

This is in direct opposition to the desires of Carranza, who has insisted from the first that Fierro be exposed to the world as the slayer of Benton and that he be punished. Villa, however, has insisted that Fierro acted to save his general's life. Villa's announcement came in the wake of the information from Saltillo that the Villa-Carranza break had been the result of Carranza's desire to expose Fierro. It is considered here an open defiance to the first chief.

**May Sail Tomorrow.**

Puerto, Mexico, July 20.—According to the latest reports, President Huerta and his party expect to leave here on Tuesday. Generals Huerta and Blanquet, accompanied by three or four aides, will sail on the German cruiser Dresden. The others will go on the steamer Mexico, of the Mexican Navigation company. It is said that she has been chartered for this purpose. The presidential guards will leave early in the morning for the capital.

A message received late Saturday night from President Carbajal refused the use of the Mexican gunboats for the purpose of their departure. The message explained that it was not deemed wise at this time that the Mexican warships should be used for such a purpose, but stated that the government would pay for the use of any vessel which Huerta might charter.

**Cholera Is Prevalent.**

St. Petersburg, July 20.—Cholera is prevalent in Podolia, a government in southwestern Russia. Thirty cases of the disease have been reported with 14 deaths.

# TEACHERS SPEND A PLEASANT DAY AT BIG ISLAND

Students at Summer Training School Make Trip on Steamer up River.

## DISCOVER INTERESTING FIELD OF NATURE STUDY

Dancing, Amateur Vaudeville, Conversation and Lunch Enjoyed en Route.

The sun shone brightly on some eight score teachers and their friends as they wended their way, soon after ten on Saturday morning, from the university en route to board the "City of Edmonton" for a trip up the Saskatchewan.

At the south end of the high level bridge a pause was made and then a sudden plunge, as teacher after teacher disappeared from sight. The cause of this was merely the intervention of a steep grade down which it was necessary that each should travel before the desired haven could be reached. The manner of descent varied, from the stalwart and easy stride of some experienced mountaineer, who, alpen-stock (or rather butterfly-net) in hand, passed down with calm mien, to the cautious creeping of others whose anxious and harrassed faces betokened inward stress.

All, however, descended safely and arrived at the steamer without the occurrence of any untoward event.

It was intended that the boat should start at 10:30 a.m., but, owing to delay, it did not leave the wharf till half an hour later. The interval passed quickly; none the less so because one of the staff, acting as bogus ticket-collector, pounced on unsuspecting students demanding their money or their lives.

As the steamer left the wharf and headed west, a fine view of the high level bridge and parliament building was obtained. Soon Hawke's orchestra struck up, and to its strains the "City of Edmonton" paddled its way smoothly up stream between the wooded banks of the Saskatchewan, across whose muddy, but swiftly-flowing waters the sunlight flashed.

The next two hours passed very pleasantly; conversation, dancing, photography and admiration of the scenery filling the bill. Stray logs were met drifting down stream; and at one point the steamer had to make its way close to the right bank as a boom had been stretched almost from shore to shore.

About 1 o'clock lunch was dispatched, the closing items in the menu being ice cream and lemonade, served on the lower deck. Having gone to this lower region to secure these delicacies, many of the party stayed to examine the curios of the engineroom and to see "the wheels go round." Some, no doubt, gazed on the machinery with the experienced eyes of engineers; others vaguely wondered which part started to move first.

**At Big Island.**

Soon after two o'clock Big Island was sighted, and soon, paddling along its south side, the boat was beached and all the party safely landed.

Nature study parties were soon formed. Some having a geological turn of mind, set out along the beach in search of rare and peculiar stones; others pushed bravely forward into the interior of the island to reach the haunts of bird and beast and flower; while others, seeming to have no definite aim can often be best observed by those who take life easily in the open woods, sat idly under the trees.

Of those who ventured into the depths of the wood some saw and admired the large black poplars; a small brood of partridge were "raised"; and a rather uncommon sight was observed i.e., the feeding, by a small red start, of a large and fully grown cowbird, offspring of that bird which makes no nest of its own but relies on the efforts of others, and usually smaller, birds to rear its young.

**Return Journey.**

A return to the steamer was made at 4 o'clock, many "specimens" having been collected on the various trips. The return journey was made in about half the time taken in the morning; and once more, dancing was freely engaged in to the strains of the orchestra.

Just before landing an impromptu variety entertainment was improvised by Mr. Clarke and Mr. Gallagher; the former dancing, with considerable skill, an Irish jig and reel, and the latter favoring the audience with two recitations. The efforts of both artistes were loudly applauded.

Soon the arrival at the wharf brought to a close a very enjoyable and much-enjoyed trip, and, to the strains of "God Save the King," the party left the steamer.

## CITIZENS' BAND HAS LARGE AUDIENCE AT SOUTH SIDE PARK

Probably the largest crowd at Tipton Park this year assembled to hear the program played by the Citizens' band on Sunday afternoon. This natural park being at the height of its beauty and the music, conducted by Mr. F. D. Shanks, being particularly well rendered, the visitors enjoyed themselves. A wish was expressed by many present that this would not be the last time this season the Citizens' band will play for the south siders.

**Soldiers to Cruise.**

The sergeants of the 101st regiment, Edmonton Fusiliers, are giving their annual evening cruise on the SS. "City of Edmonton," on Wednesday evening, July 22. The committee in charge, requests that the members of the sergeants mess, and their friends, will turn out in large numbers and make this entertainment the success it is hoped to be. There will be dancing and refreshments aboard.

# Tuesday's Aftermath Shopping Menu is Peculiarly Appetizing in its Reminders

## Throwing Out Many Odds in the Women's Ready-to-Wear Store

THE WAY THIS SALE PLUNGED INTO THE WOMEN'S section of the store and the way it plunged out again, leaving traces on every side of odds, is truly remarkable. It's these balances of one thing and another that present special opportunities to Aftermath shoppers for a few days. See what Tuesday brings.

## THE BORDEN GANG A MENACE TO THE EMPIRE.

Notwithstanding that all the machinery of the Immigration department, backed by the courts of British Columbia, has been directed against them, the Hindoos still stick in Burrard Inlet and the powers that be seem to be unable to get either they or their chartered Japanese steamer to move.

In the meantime there are some very curious by-products of the situation thus manufactured commencing to trickle over the wires. Back from India comes the story that the governor of that empire held the Komagata Maru in port for ten days while he anxiously cabled the Ottawa authorities with the hope, apparently, of receiving some protest from this source which could be used as a reason for preventing the ship's departure. But Ottawa never even answered the cable. From Vancouver come stories of the Hindoos making bombs for the purpose of blowing up anyone with a badge or uniform of authority and stories of the manufacture absolutely out of the whole cloth by the Hindoos imprisoned on the Komagata of most heartrending stories of privation, hunger and thirst inflicted upon them by the port officers.

The whole thing appears now to have been from the first a very astutely-handled piece of agitation put forward by Indian malcontents who are seeking to undermine the confidence of Hindoos in the British government of that empire, and the underlying purpose, quite evidently, is to prove to the Hindoos by actual example that no matter how vehemently they may be assurred in India that they are full-fledged citizens who enjoy all the rights and advantages of British subjects, these rights and advantages they are not allowed to exercise when the matter is put to the real test.

It never was a secret with the British government that Britain's peaceful retention of the dominant position in India is based almost entirely upon the circumstance that through the centuries the children of Buddah sleep. But thoughtless of the outcome, the British have wakened them up and have given them a breakfast of popular education. Millions can read now where none of their caste or class could ever have hoped to read without British intervention. Today the spread of the circulation of printed matter in India ranks with the same advance of newspaper circulation in Japan as one of the marvels of the age. As a journeyman agitator, a reasonably adept Hindoo politician has Samuel Gompers, Emma Goldman and Billy Heywood looking like stolid philosophers. Just as a sample of their endeavors, the Komagata Maru incident may be taken to indicate that they are pretty fairly active at the present moment. Millions of Indians will read the story as told by the Hindoos themselves. If Britain is going to hold peaceable possession of India for very long it may be necessary for the Imperial government to put the Borden images at Ottawa through some sort of educational course to teach them how to avoid being made monkeys of by the first Hindoo agitator who realizes their urbanity. In their present state, the Borden gang are so easy that they are a menace to the empire.

## THE UNSPORTSMANLIKE DEFERRED ELECTION.

The iniquity of the deferred election is once again brought into prominence by the situation which the Roblin government is placed in by the election just now partially completed in Manitoba.

Defeated by the popular vote of the province, and without a sufficient number of seats to command a working majority, Roblin is now in the position where he is dependent upon the three deferred elections in the three northern constituencies for his hope of a working majority.

The case now is that if the inducements he has to offer are sufficient, these three constituencies can place Roblin's government in power for another four years, even after the popular vote of the province has expressed its lack of confidence in that government.

Considering that those on the outer fringe receive in ordinary times but precious little from the government in the way of public works, and considering that the backwoods constituents seldom receive the deferential attention which the strategic importance of their present position demands, it would be more than one has a right to expect of human nature that they should refuse to take advantage of their present opportunity. In all probability they will force a government upon the province of Manitoba which Manitoba does not want, and which even they themselves would vote against under ordinary circumstances.

The deferred election is unsportsmanlike, to say the very least. It is a constitutional hold out which a government afraid of the consequences makes in the hope that it may be used to save it even after it has been defeated. No matter by which party the deferred election is practised it is wrong both in principle and in practise, and the subterfuge that it is necessary on account of the inability of returning officers to get ballot boxes out into the region of the big sticks has long ago taken its place as among the palpable myths of the frontier in all except a few instances so rare that they could be counted on the fingers of one hand.

## BLOOD-CURDLERS FOR EXPORT.

"King" Carson was received in Belfast with military honors, rode at the head of a calvacade of Unionists in the center of the disturbed area on the 12th of July—and there was no fighting.

Considering the advance notices hurled throughout the empire by the Unionist press predicting carnage sufficient to create morasses of blood, and contrasting these with the peaceful celebration which took place, it looks, from this distance, as though there has been a good deal of spoofing about the Irish rebellion and the lurid frenzy of both sides to slaughter each other over the question of home rule.

Possibly the place where the least is heard of these things is in Belfast itself. The blood curdling despatches are for export to the colonies.

# The Adventures of Kathlyn

By Harold MacGrath.

(Copyright, 1914, By Harold MacGrath.)

CHAPTER XVIII.—Continued.

"Nor shall your wife."

Ramabai did not speak.

"You shall die first!"

"War or peace?" asked Ramabai.

"War!"

"So be it. I shall proceed to strike the first blow."

Ramabai turned and began to walk toward the window opening out upon the balcony; but Umballah bounded after him, realizing that Ramabai would do as he threatened, declare from the balcony what he know.

"Wait! A truce for 48 hours."

"Agreed. I have a proposition to make before you and the council. Let us go in."

Before the council (startled as had Umballah been at Ramabai's appearance) he explained his plan for the pacification and amusement of the people. Umballah tried to find flaws in it; but his brain, befuddled by numerous drugs and disappointments, saw nothing. And when Ramabai produced his troupe of wild animal trainers not even Winnie recognized them. But during the argument between Umballah and the council as to the date of the festivities Kathlyn raised the corner of her veil. It was enough for Winnie. In the last few days she had learned self-control; and there was scarcely a sign that she saw Kit and her father, and they had the courage to come here in their efforts to rescue her!

It was finally arranged to give the exhibition the next day, and messengers were dispatched forthwith to notify the city and the bazaars. A dozen times Umballah eyed Ramabai's back, murder in his mind and fear in his heart. Blind fool he had been not to have seen the man in his true light and killed him. Now, if he hired assassins he could not trust them; his purse was again empty.

Ramabai must have felt the gaze, for once he turned and caught the eye of Umballah, approached and whispered: "Durga Ram, wherever I go I am followed by watchers who would die for me. Do not waste your money on hired assassins."

As the so-called animal trainers were departing Kathlyn managed to drop a small piece of a little ball of paper which the young sister manoeuvered to secure without being observed. She was advised to have no fear of the lions in the arena, to be ready to join Kathlyn in the arena when she signified the moment. Winnie would have entered a den of tigers had Kathlyn so advised her.

Matters came to pass as Ramabai had planned; the night work in the arena, the clearing of the tunnel, the making of the trap, the perfecting of all the details of escape. Ahmed would again have a chance to kill Sing Singh of the road, and All (Bruce's man) would arrange that outside the city there should be no barriers. All because Ramabai thought more of his conscience than of his ambitions for Pundita.

And when, late in the afternoon, the exhibition was over, Kathlyn stepped upon the trap, threw aside her veil, and revealed herself to the spectators, for all her darkened skin they recognized her, and a deep murmur ran around the arena. Kathlyn, knowing how volatile the people were, extended her hands toward the royal box. When the murmurs died away she spoke in Hindustani:

"I will face the arena lions!"

The murmurs rose again, gaining such volume that they became roars, which the disturbed beasts took up and augmented.

Again Kathlyn made a sign for silence, and added: "Provided my sister stands by my side!"

To this Umballah said no. The multitudes shouted defiance. In the arena they were masters, even as the populace in the old days of Rome were masters of their emperors.

Winnie, comprehending that this was her cue, stepped forward in the box and signified by gestures that she would join her sister.

The roaring began again, but this time it had the quality of cheers. A real spectacle! To face the savage African lions unarmed! A fine spectacle!

Winnie was lowered from the box, and as her feet touched the ground she ran quickly to Kathlyn's side.

"Winnie, I am standing on a trap. When it sinks be not alarmed."

"My Kit," cried Winnie, squeezing her adored sister's hand.

The arena was cleared and the doors to the lions' dens were opened. The great maned African lion stood for a moment blinking in the sunshine. One of them roared out his displeasure, and saw the two women. Then all of them leaped toward what they supposed were to be their victims.

That night in the bazaars they said that Umballah was warring in the face of the gods. The erstwhile white queen of the yellow hair was truly a great magician. For did she not cause the earth to open up and swallow her sister and herself?"

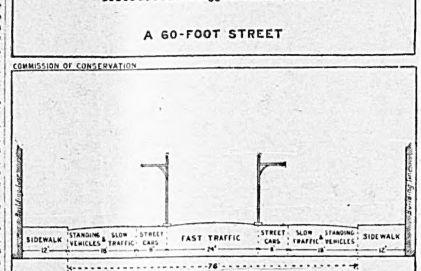

(To be continued tomorrow.)

## APOHAQUI MILL IS LEVELED BY STORM LOSS OF $300,000

Apohaqui, N.B., July 20—A cloudburst Saturday morning during the most disastrous storm in the memory of residents of Apohaqui, caused damage estimated at $300,000, and will result in the closing of the Jones Bros' mill at Apohaqui, owing to the loss of 1,000,000 logs and the wrecking of the structure by the mighty flood in the mill stream. Roads and bridges were swept away by torrential rainfalls and flood, and crops are ruined in the mill stream valley. Barns owned by A. E. Colpitts and James O'Neill were struck by lightning and burned, and four dwelling houses were damaged by bolts.

## One Reason For Town Planning; Business Street Development.

How Residential Streets May be Converted into Business Thoroughfares Without Excessive Cost or Unsightly Irregularities—Forethought Would Effect Great Saving; Municipality may Acquire Land at Minimum Cost.

Criticize the congested main street of a town as being too narrow, and a resident will probably tell you: "Yes, that is all right, we realize that now, but, when that street was laid out, no one ever thought it was going to be a busy thoroughfare. Why, I remember the time when all this portion of the street where we are standing was lined with private houses." We can all of us think of dozens of examples of this sort of thing. The problem is to so plan residential roadways that they may be gradually transformed into business streets at a minimum of expense. One way in which this may be done may be understood by a glance at the accompanying illustrations.

The upper diagram shows a street 60 feet wide and suitable for a residential section. The roadway is of moderate width, sufficient to accommodate the light traffic of delivery wagons, carriages, etc., that serve the houses on either side. A boulevard and trees give it a pleasant appearance, and, also, the houses are set back 20 feet from the property line, with gardens or lawns between them and the sidewalk.

If commercial interests should invade this region, property owners would, under ordinary circumstances, build forward to the sidewalk, partly to use the extra space, but chiefly to bring store windows flush up to the causeway. A portion of the street in process of transformation presents a very ragged appearance, due to the lack of a uniform building line. When the process is complete, the once beautiful residential street has become a congested business thoroughfare with narrow walks and a 44-foot roadway. To widen it would necessitate the tearing down of valuable buildings and would be a heavy expense to the taxpayers.

Foresight would obviate this undesirable development. All that is necessary is to establish a restriction prohibiting the use of land for building beyond an established line. Legally, of course, this involves compensating the property owners, but the damages can be distributed over a long period in a simple way. No property rights need be acquired by the municipality until application is made for a building permit on an obstructive site, and then the restriction can be imposed and paid for. In this way the public thoroughfare is gradually widened at exactly the same rate as the growing commercial interests require. At no time is it necessary to pull down buildings. When any considerable number of property owners require it, the walk may be moved over to the building line and the roadway widened. The trees should be left as long as possible, and, unless a street railway is constructed, should be a permanent feature.

The lower diagram shows the ultimate development of the 60-foot street into a 100-foot thoroughfare. Safety for pedestrians crossing the wide roadway is provided by "islands" at the base of each pole holding the electric wires. Motor-cars may run up and down the middle unimpeded by slow-moving wagons and drays, while the latter have ample room to pass between the street car tracks and standing vehicles by the sidewalks.

## Independent Order of Foresters, Now a Sound Co-operative Insurance Society

In the annual life insurance tables for 1914 compiled by Stone & Cox, of Toronto, including only the Companies that comply with the Dominion of Canada Insurance Act, appears the following reference to Fraternal Societies

"On the following pages we give the rates and benefits of the Independent Order of Foresters. This Society has succeeded in placing all its policy contracts upon a sound actuarial basis. The rates charged by the society are based upon the carefully calculated experience of the society itself extending over twenty years and comprising 283,541 lives, with 4 per cent. as the assumed rate of interest to be earned.

Reserves are maintained by the society based upon this mortality experience and rate of interest, and are adequate, upon this basis, to meet all policy contracts at maturity without change in the rates of assessment.

As other fraternal societies come into line with the I.O.F., we shall be pleased to insert their particulars in this book."

About one third of the members only were effected by this adjustment that put the whole order on an actuarial basis, as all members who have taken out insurance since Jan. 1, 1899 are paying experience cost rates.

In fraternal societies it is remarkable what an economy in insurance protection can be effected on the basis of co-operative actuarial cost.

A member of the I.O.F., if accepted by the medical board for same, can carry $5,000 insurance, payable monthly, at the age of 20 for $56.80 per year; at the age of thirty for $78.20 per year; at the age of forty for $108.60 per year; at the age of fifty for $181.80 per year. Those men and women who join can apply for insurance from $500 to $5,000, that gives them a cash surrender value of $700 on each $1,000 carried, on proof or total disability or on reaching 70 years of age.

The surplus in the accumulative funds of $43,648,758.00 amounted to $891,646.00 as on Dec. 31st 1913. This surplus which will be growing at the rate of several hundred thousand dollars per year from present indications will be returned to the members as a bonus on their policies as they mature.

## ABBOT UNDER ARREST CONFESSES ESPIONAGE IN FAVOR OF GERMANY

Rernay, France, July 20—Abbot Hiertabout, cure of Fontaine LeLouvet, has been arrested on the charge of espionage and has confessed that he acted in the interest of Germany. A railroad agent from whom he sought information regarding mobilization, brought about the arrest. Photographs, plans and data in the possession of the abbot have been seized.

## ROAD LABORER IS KILLED WITH AXE DURING A QUARREL

Regina, July 20.—Word has reached the city that a fight between employees of a government road gang has ended fatally, near Balcarres. According to the information received last night one of the workmen killed another with an axe during a quarrel, and that a mounted policeman was investigating. No report had reached the barracks up to a late hour.

### Drowned at Gadsby

Stettler, Alta., July 20.—Yesterday morning a young man named Robert Grant, of Gadsby went with a companion bathing in the dam at Gadsby when it is supposed Grant was seized with cramps and was drowned in about 16 feet of water. His companion also had a narrow escape.

### May Be Missing Woman

Chicago, Ill., July 20.—A body believed to be that of Katherine Winters for whom a nation wide search has been made for more than a year, was exhumed in the potters' field in a cemetery at Urbana, Ill., yesterday, according to a report received here early today.

Charles Milliron has lost his job as schoolmaster in Usk, Ore., for kissing girl pupils.

I. M. De Verona has retired after serving 30 years in a New York water department engineership.

Children Cry FOR FLETCHER'S CASTORIA

## IN THE PARLOR CAR

Railway and Shipping News.

The G. T. P. trans-mountain route to the coast, across the continent or around the world promises to become one of the most famous and most traveled in the world soon. Almost every day some person or party of people passes through Edmonton to take the "Athabasca trail," no longer one of pack-horse and canoe, but one of comfortable sleeper and parlor car.

In a few months a daily train, equipped with the latest and most modern comforts and luxuries of travel, will start from Moncton, on the historic shores of New Brunswick, for Prince Rupert, the new city on the balmy Pacific, while another, equally modern and luxurious, will start out from Prince Rupert each day, each passing through not hundreds, but thousands of miles of mountain, prairie and forest, past rivers and lakes, through oceans of wheat and alone the sides of hills on which browse thousands of cattle.

To bring more graphically before the people of the world the beauties of probably the most interesting part of the long "all-Canadian" route, the G. T. P. has arranged for a visit of several artists and others of note, who left for the west on No. 1 Friday night by special car.

R. C. W. Lett, tourist and colonization agent of the company, was in the party and among others the following: J. N. Bell-Smith, the well known artist of Toronto; W. J. Speers, official lecturer for the Grand Trunk system in Europe; J. Hopkins Wilson, the Ottawa art critic; W. J. Topley, photographer to the Duke of Connaught, and E. A. Blow, formerly of Edmonton, will represent the Western Associated Press. Most of the party will make a stay of considerable length in Jasper park, near Mount Robson and in other beauty spots in the mountains, while Mr. Lett and his assistants will travel through the agricultural districts the road traverses, and come into personal touch with new settlers and others.

General Superintendent D. C. Coleman of the Canadian Pacific has officially announced that Lethbridge is to be a new divisional point commencing August 1. Fred Walker, of Calgary, will be in charge.

The Grand Trunk Pacific guarantees agreement is not yet executed although the papers are practically ready. Negotiations indirectly connected with it are in progress between the labor department and the officers of the company in Winnipeg respecting the carrying out of an award of the board of conciliation in regard to the machinists' strike. It is hoped to effect a settlement.

A trust mortgage has been filed in the secretary of state's office at Ottawa by the Canadian Northern railway to the National Trust company. The mortgage is dated February 21, 1914, and it gives the secure debenture stock of the company bearing four and a half per cent. interest, and redeemable in 1930. The total stock to be issued is, according to terms of the mortgage, limited to the difference between $15,000 per mile on all the company's lines in Manitoba between Westgate and Erwood, in respect of which securities have been heretofore guaranteed by Manitoba in respect of the same lines. The stock may be issued at par or at a discount or at a premium. The stock is to rank "pari passu" and be secured equally and rateably without discrimination or preference, whatever may be the date of issue of the same.

"Alberta's beauty spot" is the way papers and people of Red Deer describe Sylvan lake, the beautiful body of water about 18 miles west of Red Deer on the line of the Alberta Central railway, a Canadian Pacific subsidiary, running from Red Deer to Rocky Mountain House.

A party of C.P.R. men, newspaper men and Red Deer business men recently visited Sylvan lake and while there were the guests of I. H. Ker, of the Eau Claire Lumber company and the Calgary Milling company, of Calgary, who has a five-acre estate on the shores of the lake.

In the party were Edward Michener, M.P.P., and leader of the opposition in the Alberta legislature; Mayor Carscallen of Red Deer; R. B. Welliver, president of the Red Deer board of trade; H. J. Snell, secretary of the Red Deer Merchant's association; R. Dawson, district passenger agent of the C.P.R. at Calgary; A. J. Shulman, travelling passenger at Edmonton, and others.

The Retail Merchant's association of Red Deer expects to arrange an excursion from that city to the lake a week from next Wednesday, which will be a half holiday in Red Deer.

It is believed that Sylvan lake will become one of the foremost summer resorts in western Canada. Mr. Shulman has arrived in the city and states that it has a fine hard sand beach, a beautiful shimmering surface and that its name realistically portrays its qualities as a summer resort.

Steamer arrivals were as follows yesterday:

Montreal — Virginian, Liverpool; Tunisian, Liverpool; Teutonic, Liverpool; Andania, Liverpool.

Quebec—Andania, Liverpool.

Halifax—Arcana, New York.

Libau—Kursk, Palermo.

Hongkong—Empress of India, Vancouver.

St. John—Rijano, Philadelphia.

Glasgow—Scandinavian, Montreal.

Patras—Ivernia, New York.

New York—Celtic, Liverpool; La Touraine, Havre.

Southampton—St. Paul, New York; Olympic, New York; Main, Baltic; Kaiserin Auguste Victoria, New York, York.

Cherbourg—George Washington, New York.

Naples—Casertia, New York; Kaiser Franz Joseph, New York.

Trieste—Oceanic, New York.

Marseilles—Patria, New York.

## OBJECTS TO KICKING, RANCH HAND FIRES ALLEGED FATAL SHOT

Lloydminster, Alta., July 20.—George Penny, a homesteader living about 11 miles southwest of here, was shot and died a few hours afterwards, by what is alleged to be the accidental discharge of a revolver in the hands of a hired man named Mason.

Penny is said to have left town in an intoxicated condition, and started in to kick Mason, and when he would not desist, Mason picked up the 32 Colt and threatened to use it if he was not left alone. Penny immediately started in to boot Mason again, and in the tussle the revolver was discharged, the bullet passing through Penny's stomach.

After the accident Mason gave himself up. An inquest will be held.

J. Ross Stevenson, new president of of Princeton Theological seminary, is a former Baltimore Presbyterian pastor.

# PACIFIC RATE WAR NOW THREATENED

## Withdrawal of Blue Funnel Line From Conference May Prove Significant.

## SILK AND TEA RATES CUT

## Other Companies Consolidate —Decide Rebate Shippers 20 Per Cent.

Ottawa, July 20.—That the serious withdrawal of the Blue Funnel line from the Pacific conference, which is in existence for the purpose of fixing east bound rates on freight from ports of call in Japan to Pacific coast ports in Canada and the United States, has developed an interesting situation which may have far-reaching results and in which are elements that may possibly lead to a rate war on eastbound traffic, is the opinion of Gordon B. Johnson, Canadian trade commissioner at Yokohama.

There were nine companies in the conference, including the Blue Funnel, the C. P. R. royal mail steamship line and others. The withdrawal from the conference of the former company at the end of May is said to have been due to the behavior of one of the Japanese lines which is alleged to have been giving secret rebates to certain shippers in contravention of the conference agreement.

The Blue Funnel, since its withdrawal, has cut the rates on silk and tea. To meet this cut, the conference lines have decided to pay a deferred rebate of 20 per cent. to all shippers of silk and tea, the payment to be made on November 30 next.

Instead of causing a complete breakup of the conference, the withdrawal of the Blue Funnel line has had the effect of consolidating the remaining lines and a freight rate war between the two seems not unlikely, which, by reducing freight rates, will keep exporters in a continual state of uncertainty.

### Women Thrash Editor.

Stuttgart, Germany, July 20.—Two social-democratic women yesterday invaded the office of the Schwaebische Zeitung and for five minutes mercilessly thrashed the editor because in an article in the newspaper he had maligned women.

## PERSONALS.

John H. Conklin, of the Duncan McArthur Construction Co., returned yesterday from a business trip to Winnipeg.

Duncan McArthur, who has the contract for the construction of the A. and G. W. railway returns to the city this evening from Winnipeg.

William Cameron, of the Headland hotel, has returned from Winnipeg, where he went to attend the exhibition.

E. A. Blow, of Winnipeg, is in the city en route to Fort George and Prince Rupert.

Mr. and Mrs. J. J. Creighton of Stony Plain road, who accompanied the Ad club party to Toronto, returned to the city last evening. They leave tonight for Edson, where Mr. Creighton has considerable property interests.

Councillor Porter, of Athabasca, is in the city and is staying at the Savoy hotel, Kinistino ave.

Bell Smith, the famous Canadian artist, passed through Edmonton yesterday en route to Jasper park, where he will make sketches of Mount Robson and other notable scenic objects in the mountains, which he will subsequently transfer to canvas in oils and water colors.

William Pruden, formerly of Winnipeg and now an extensive land owner in the Hardisty district is in the city on the way home from the Winnipeg exhibition, accompanied by William Bruce, a wealthy Red river native, and a former Indian trader and hunter. Mr. Pruden was born at Fort Carlton, on the Saskatchewan river, nearly fifty years ago. His grandfather was one of the leading officers of the Hudson's Bay company in the real romantic days of the fur trade, and established Fort Carlton and other remote northern trading posts.

W. C. R. Lett, of the G.T.P. colonization department, was in the city on Saturday with a moving picture outfit, with which he purposes taking views between Edmonton and Prince Rupert, in order to show what development has taken place and also to show the physical characteristics of the country and so far as possible its natural resources.

Peter Gunn, M.L.A., is in the city, and is staying at the Cecil.

The quarterly union meeting of the Woman's Missionary society will be held tomorrow afternoon at three o'clock in the Highland Methodist church.

Over 800 Americans live in Barcelona, Spain.

### Memorial Mass Celebrated.

Montreal, July 20.—A solemn memorial mass for the late Archduke Francis Ferdinand, of Austria-Hungary and his wife, was celebrated by Archbishop Bruchesi in St. James Cathedral yesterday morning.

Asthma
Asthma and hay fever, even of long standing and of the most distressing severity, are relieved at their terror by this reliable remedy.

FASHIONS AND FANCIES

## THE GAY WORLD.

Under the auspices of the Y.P.S. of Westminster church an ice cream social will be held on Friday on the manse lawn, corner of McDougall avenue and Sutherland street.

* * *

The Edmonton Tennis club tournament is nearing the final events and this week will be especially interesting. It is expected that Saturday will be the last day of the tournament. Some very great surprises in the local tennis world have been the order almost from the beginning. Quite a number of players and spectators found their way to the courts last Saturday, among whom were Mr. and Mrs. Leslie Jennings, Mr. and Mrs. Arnold Soars, Mr. and Mrs. Norman Soars, Mr. and Mrs. A. E. Nash, Miss Cauchon, Miss Ebert (Red Deer), Mr. and Mrs. Wilson, Mrs. Tallyour, Mr. T. A. Davies, Mr. and Mrs. H. L. Seymour, Mr. Wilfred Barnes, Mr. Jimmy Bissett, Miss Hill, Miss Kelly, Dr. Mills, Mr. Brown.

* * *

Mrs. Hume is a tea hostess today.

* * *

Mr. E. J. Case, manager of the Imperial Bank of Canada, at Red Deer, has been transferred to Athabasca Landing.

* * *

Miss Alice Cameron was the hostess of a dainty little luncheon on Saturday in honor of Miss Kathleen Pace, the bride-to-be of Wednesday. The guests included Mrs. Jack Rodgers, Miss Margaret Pace, Miss Mewburn and Miss Belcher.

* * *

Mr. J. J. Baker, of Calgary, is the guest of Mr. and Mrs. C. A. Curtis.

* * *

Mrs. M. R. Jennings and Miss Margaret Bartlet (Buffalo), spent a day with Mr. and Mrs. J. H. Woods, Calgary, en route to Banff.

* * *

Mrs. Frank Wrigley and Master Wrigley, of Calgary, will spend the next few weeks at Gull Lake.

* * *

Mr. and Mrs. Lambert have returned to Calgary after a short visit in the city.

* * *

Madame Edith Yates, of Calgary, is the guest of Mrs. McCaffrey.

* * *

Their Royal Highnesses the Duchess of Connaught and Princess Patricia of Connaught, accompanied by two ladies in waiting, the Hon. Katherine Villiers and Miss Dorothy Yorke; by Capt. T. H. Rivers-Bulkeley, comptroller of the household, Mrs. Rivers-Bulkeley, Capt. Graham, A.D.C., and Sir Edward Worthington, are in residence at Rideau hall. The Duchess of Connaught and Princess Patricia will remain in Ottawa during the absence of the governor-general in Newfoundland and will leave with him later in the month for the west.

* * *

Senator and Mrs. Lougheed have issued invitations to a dinner party to be given at their home in honor of T. R. H. the Duke and Duchess of Connaught on July 28.

* * *

Mrs. Ambrose Dickins expects to leave today for Banff, where she will be the guest of Mrs. Bryce Saunders for a time.

* * *

Miss Jean Mowbray, of St. John, N. B., is the guest of Miss Josephine MacNeil.

* * *

Rev. P. C. Cameron, B.A., B.D., and Mrs. Cameron, of Windsor, are guests of Mrs. W. G. Kells and Miss Edna Kells.

* * *

Mr. and Mrs. G. H. Magoon, Orleans, Vermont, who have been the guests of Mr. and Mrs. H. A. Magoon, left today for their home.

* * *

Mr. and Mrs. Magoon return to their cottage at Wahamun today.

* * *

Mr. Eddie MacDougall leaves for the coast today, where he will be the guest of his sister, Mrs. Chilcot.

* * *

Mr. John C. MacDougall and Mr. Jim MacDougall leave tomorrow for the Alpine club meet.

Miss Florence and Miss Maud Almsey, Cannington, Ont., are expected to arrive on Saturday to visit their aunt, Mrs. J. A. MacDougall.

* * *

**Weddings.**

**Bruce-Ricker.**

On Friday, in McDougall Methodist church, the marriage of Mr. Charles Bruce to Miss Nettie Ricker, both of Edmonton, was solemnized, Rev. J. H. Riddell, of Alberta College, officiating, assisted by Rev. W. E. MacNiven, of McDougall church.

* * *

**McMasonny—Hadder.**

On Wednesday, July 15, at McDougall church, the marriage of Mr. Austin Albert McMenomy to Miss Margaret Hadder was solemnized, Rev. W. E. MacNiven officiating.

**Educational Work In Victoria.**

Very important educational work is being done in Victoria this summer. From all parts of the province there are gathered together some 600 men and women, engaged in learning how to teach boys and girls the beginning of rural science, manual training, drawing, music, sewing and other branches of domestic science. The response of the teachers to the invitation of the department of education must have been very gratifying, and yet the classes are filled with earnest pupils, and the instructors are determined that each shall reap the greatest possible benefit from the month's work. It is certain that the results of this instruction will be felt all over the province in many ways.

**LINENS and LACES**

You are invited to inspect the World's Finest Productions of Linens and Laces.

**W. S. D. ANDERSON, Importer**

**LISTERINE**

*Use it every day*

LISTERINE checks and purifies the mouth and gums after the teeth have been brushed.

Listerine overcomes offensive breath odors.

Listerine is the most generally useful antiseptic preparation that can be prepared. It is *safe* and agreeable.

*All Druggists Sell Listerine*
LAMBERT PHARMACAL COMPANY
Toronto, Ont.

## FOR THE HOUSEKEEPER

When cooking asparagus in broken pieces, it is a good idea to add the tender tips after the tougher pieces have begun to come tender.

When canning peaches, pour boiling water over them and the skins will slip off easily, leaving the fruit smooth and perfect. This method can also be used with tomatoes.

Flies can be driven out of the house by making the rooms very dark, excepting one crack of light leading into the out-of-doors. The flies will be attracted to the light and crawl out.

The ivory handles of table knives can be made like new in this way: Remove the stains with lemon juice and salt, wipe with a damp cloth and polish with a soft cloth and putty powder.

To clean furniture thoroughly and produce a fine lustre, wring a cloth out in a pail of water in which a teacupful of coal oil has been mixed, wipe the furniture with the cloth wrung very dry.

Use neatsfoot oil to clean leather by adding an equal quantity of beeswax and melt over hot water with twice the quantity of turpentine. Apply soft, but not liquid, putting on enough to be absorbed.

In stitching seams cut on the bias always begin at the widest end. Keep the garment as flat as possible, and do not let it fall over the edge of the table. This prevents dragging. Also use as small a stitch as the thickness of the material will allow.

With solmon, cut big cucumbers into three-inch lengths and scoop out the centre. Mix minced canned salmon with mayonnaise dressing and pile it into the cucumber boats.

Pewter must be kept bright. One way to do it is to wash, then dry it. Rub on a little sweet oil, then with flannel rub on whiting and polish with chamois skin. If the articles are very dirty it may be necessary to clean them with hot lye or wood ashes and fine sand.

**Wants His Wife to Account**

New York, July 18—James W. Donely and his wife, Alice M. Donely, have been married for 15 years. Now he is suing her in the New Jersey Court of Chancery for a cash accounting of all the money he has given her for household and other expenses since they were married. She says it would be impossible. The judge says: "We must be careful, or we'll have a divorce suit on our hands."

Corks may be made airtight and watertight by keeping them immersed in oil for five minutes.

**THE SMALL AD PAYS**

It keeps your business name before the public if nothing else.

A daily impression in the majority of Edmonton homes—no matter how small—will eventually enable you to run "Big Ads" with big results.

## SCANTY GOWNS WORN AT BALL TO AID BLIND

Biggest Success of London's Social Season Attends C. A. Pearson's Charity Affair.

The most successful big social event of the present London season was the midnight fancy ball given at the Savoy Hotel by C. Arthur Pearson in aid of the charities for the blind.

Mr. Pearson, proprietor of the London Express, recently was stricken blind in the midst of an energetic and successful career; but instead of succumbing in melancholy, with courage he devotes all his spare time to obtaining support for blind charities. In the last year he has raised by various means $350,000.

At the midnight ball, tickets for which sold at $100 apiece, everything at the supper, including wines and cigars, was supplied free by different contributors, and the guests raffled for a large number of prizes including a $3,000 automobile, all presents from well known firms.

The police at the last hour notified Pearson that the ball would be prohibited if it was associated with a raffle which is illegal, so Pearson had the raffle held elsewhere, describing it by another name, thus evading the law.

Society and the stage mingled in the ballroom and the costumes included many futurist freaks. One pretty woman was got up as an aeroplane, with a heavy jewelled Nubian page bearing her train which was her principal garment, her body being displayed almost to the waist. Ina Claire appeared in a scanty Watteau Pierrot costume of white and red squares, while the Duchess of Sutherland, one of the handsomest women present, was tall and stately as Red Ridinghood. Several prominent society women appeared as Columbines in fluffy skirts about to the knees and tights. Some of the most fetching costumes were worn by the American beauty chorus from the "Belle of Bond Street."

## DO YOU KNOW?

That Aphrodite is a lovely azalea red tone.

That it takes twenty-nine women to make a man's coat.

That the diamond cut in oval shape is beautiful and new.

That the bloomer suit is growing more and more popular for swimming says New York.....

That amethyst table glass is the newest fad for London society dinner tables.

That frocks of white Swiss are trimmed with bands of flowered muslin.

That a new veil is caught into a velvet neckband decorated with rhinestone or cut steel.

That unusually cold weather in England and the continent has made many Americans return earlier than usual to New York.

That fall materials are to be more gorgeous than ever and more expensive.

That the Housewives' League in New Jersey defeated a bill in the legislature which would have practically legalized the sale of adulterated milk.

That veils are well nigh indispensable to the traveller and the wise woman has a fresh clean veil in her dressing bag as well as the one she is wearing.

That a Kansas paper prints this reminder: "A woman of this town who has a closet full of dresses and yet worries every day as to which dress she shall wear downtown, seems to have forgotten that she will have but one white robe in New Jerusalem.

## Theatres and Picture Shows

### ROW OF HEADLINERS OFFERED THIS WEEK ON PANTAGES TIME

What promises to be an all-star bill opened at Pantages theater this afternoon, and beside each act being high class there will be an extra attraction in the shape of Mrs. Emmeline Pankhurst, the noted militant suffragette leader, in a four-reel motion picture entitled "80 Million Women Want—?"

It took some persuasion, to get Mrs. Pankhurst to pose for a motion picture, but finally she decided it would help the cause, as the photo play plainly shows the necessity of a woman's influence in politics to rid it of the dirty methods employed in some sections.

Mrs. Pankhurst is possibly the only woman alive today who get her name in the press of the world with such frequency and it is not always with pride that she can look back at some of the articles that have appeared against her. Every time there is a picture slashed, a bomb thrown, a residence of a nobleman fired, it is always Mrs. Pankhurst who is alleged to be the instigator. Sometimes it is known that she was not behind the movement, but at others it seems almost certain but whether she was or not the fact remains that she is the leader of the naughtiest band of militants that ever lived. The story which is woven round her teems with love and intrigue and dirty politics, and is one of the timeliest dramas ever written.

The headliner on the bill is "Night-Hawks," the sensational comedy-drama of the underworld. The playlet was written by J. K. Friedman, who is known to Edmontonians by his articles in the Saturday Evening Post, and is a story of life at its tensest in the underworld. The rapidly changing situations are woven round the adroit attempts of Joe Daniels to escape the clutches of the police with Kate, the girl he loves. The story is a thriller, but throughout its entirety there is nothing which is objectionable.

The music loving patrons will be satisfied this week with Rozella and Rozella. They are well known character and novelty musicians and can be depended upon to render some music on their harps and violins which is pretty hard to beat. The fun starts when Palfrey, Barton and Brown make their appearance in comedy bits of vaudeville, which includes everything from acrobatic to good singing.

But the fun does not stop there. Quinland and Richards will present a laughing comedy sketch entitled "The Quack Dentist." Quinland and Richards are recognized by competent critics as the best black face comedians that ever put a foot upon the vaudeville stage. They are old minstrels of the famous Dumonts fame and they produce three different kinds of laughter—shrieks, roars and yells.

The added attraction is Dave Wood's animal actors and the kiddies will have the time of their lives when they see the different animals go through various antics which is not only amusing, but educating.

### EMPRESS HAS LAUGH PRODUCE HEADLINER FOR FIRST OF WEEK

"The Alarm," a two-reel Keystone comedy, holds the stellar position on the program at the Empress theater the first two days this week. Patrons of the "theater beautiful" will recall with genuine delight the film manufactured by the same company entitled "Caught in A Cabaret," which was shown here recently. "The Alarm" is said to be even better than "Caught In a Cabaret," and in presenting this much imitated two-reel conglomeration of fun, the Keystone company has opened a new freshet of comedy which should please the most jaded theatergoer.

Included in this picture are all the ingredients which should make up a comedy film. Nothing is exaggerated, and Roscoe Arbuckle, the fat man with the Keystone company, who has directed the film, has exercised excellent judgment in the selection of the players who acted in the little drama. The action centers about a field day celebration, participated in by the Keystone firemen and policemen. Every possible laugh-provoking device known to the prolific Keystone directors is utilized, but nothing is exaggerated, which makes the film all the more worthy. The field day sports between the two factions of the city guardians is alone worthy of more than ordinary attention, while the fact that the chief of the fire department and the police captain are in love with the same girl adds considerable zest to the suffering.

There will be a one-reel drama and some news views of the world on this program, while Mr. Faul, the Empress musical director, will present his ever welcome program of musical numbers.

### LYCEUM CELEBRATES TWO YEARS DRAMATIC STOCK PRODUCTIONS

An altogether worthy offering is presented by the Lyceum players at the Lyceum theater this week as the second anniversary celebration of the opening of that playhouse as the home of dramatic stock. It was just two years ago this week that the Lyceum opened as the home of first class dramatic stock, and "The Wolf" was the first play presented.

With Edward Hearn in the role of Jules Beaubein, "The Wolf," is here again this week. From the first curtain until the last there is action in this fine play of the Canadian woods. The most striking feature of the entire play is the knife fight in the dark, which is considered by many critics the greatest piece of stagecraft on the American stage.

The usual Wednesday and Saturday matinees will be played at the Lyceum this week.

### FILM OF SENSATIONS LEADS PROGRAM AT BIJOU FOR TWO DAYS

More sensations than are usually included in the action of a motion picture are to be found in "At the Wheel," a three-part Great Northern film which is the feature of the program at the Bijou theater the first two days this week. Devotees of the movies who recall "A Dash for Liberty," the three-part Great Northern picture seen here last week can easily testify as to the number of thrills that can be found in one of these subjects.

The chief character is one Kitty Bey, a feminine charmer whose witchery sets her into trouble, causes a steamship officer to be sent to prison, and eventually brings about the death of Kitty, the steamship officer and the owner of a large steamship line. There is not one foot of superfluous film and the action is fast from start to finish. Several little human touches that make the film a success can be readily recognized by confirmed lovers of motion pictures while others will be interested from the outset.

There will be a comedy reel on this program to provide the laughs while the feature film is giving the audience a taste of big sensations. A Bijou entertainment without a Keystone comedy would be like a ride without a rudder, and Manager Hazza has no intention of allowing his patrons to believe that any part of the program at that photo-play house will be left out regardless of the extra expense attached to bringing a film like "At the Wheel" to Edmonton.

On Tuesday night the big country store will hold forth on the Bijou stage. There will be 40 prizes this week to be distributed in the regular manner, and the management promises that prizes considerably out of the ordinary will be passed out from the stage. On Friday night there will be two big features, the amateur and professional stage try-out and a men's nail driving contest. So popular did the ladies' nail driving contest prove last Friday night that Manager Hazza has determined to give the stronger sex a chance this week.

### REAL INDIANS AND WARWHOOPS COMING WITH BIG CIRCUS

The warwhoop of the Indian has long ceased to echo from the plains and mountains, but their method of preserving customs, celebrating events, rythmically relating racial history will long keep pace with the white man's anniversary dinner and celebrations, and will be on the menu list of Sells-Floto-Buffalo Bill show.

Feasting and oratorical relations of episodes, traditions, personal exploits, worship of the sun, the elements and Manitou are still associated in preserving legendary lore through the province of the dance. With the ancients, the dance figured predominantly as the earliest medium of religious worship, with chanting prayers and musical accompaniment by its devotees. The most exurberant and natural exponents of its physical graces, have been the primitive people's and most savage tribes. None cover the theme so extensively as does the American Indian—Catlin crediting him with over 50 different subjects—and none excelled them in non-cumbersome, picturesque garb, of paint, head dress and bustle of feathers, quills, horse tails bell ornaments, and the like, with at night the glare of fire, the flash of flambeau, with the accompanying tom-tom music and shrill high-note singing—combined to make a weird impression. A sample is the Aborigines as they disgrag and wibble-wobble with contortions in their native style of effort in the light fantastic—by a band, of Sioux Indians, who also will be prominent in the free street cavalcade of all races and nations, led by Col. Cody, Buffalo Bill, to herald the two afternoon and evening performances of the Sells-Floto Buffalo Bill Radiant Rainbow show.

The horse show of horse shows with Sells-Floto-Buffalo Bill, will be directed by Rhoda Royal, the pre-eminent trainer, who will present diploma-winning graduates in the high school art from the equine university stud—in numbers, actions, steps, gaits and cavortings in every known feat in equestrianism and a myraid of new accomplishments to add surprise to wonder, at the sagacity of his four-legged thoroughbred pupils, and the plaint aid given in every movement by the lady riders and cavaliers, who have been trained to the minute to assure superexcellence, with Sells-Floto Circus.

The military marvels, Captain Devlin's Western Zouaves world-famed, are applauded and commended in every capital city of armed Europe, London, Paris, Berlin, Vienna, Rome, etc., when in tour with Buffalo Bill. Exponents of possibilities in physical perfection, dexterity in drill, speed of cadence, pace or gait, and dash in wall-scaling of the American volunteers, are one of the most educative features with the Sells-Floto-Buffalo Bill show.

Varnished paint can be kept bright by soaking in water for some time a bag filled with flaxseed, and then using it as a cloth to clean the paint.

Muslin tubing makes pillow cases which are very little trouble, either to make or to launder. They should be left open at both ends.

## ESKIMOS TAKE TWO FARCICAL GAMES FROM HAT

### Scores Were 11 to 6 and 13 to 7—Some Rank Stuff Pulled by Both Teams.

Medicine Hat, July 29—Two of the wildest exhibitions of baseball witnessed here in some time were pulled off Saturday when Medicine Hat met a double defeat at the hands of Edmonton. Both were awful exhibitions. The pitching of both clubs was of the rankest. Neither team could hit the ball, especially the locals, who all told, had 23 men left on the bases in two games. To make matters worse in the last game the visitors jumped into the lead in the eighth and then started to burlesque the game by trying to get out. The Medicine Hat players carried it on by refusing to put them out, playing for darkness, with the result that the fans saw the sickening spectacle of Povey walking home and scoring from second, and Williams from first, while Goldie stood at the plate and swung at balls which even the catcher could not get near. President Fleming is loud in his denunciation of such tactics, and has placed a fine of $25 each on Manager Dunn and Manager White, for allowing their players to pull such stuff. The next time it occurs in the league he will make the fine $100.

Scores:

## CALLIES DEFEAT SONS OF ENGLAND

### Score Was 2 to 1 and Blues Deserved Win on Merits of Play.

The Callies defeated the Sons of England on Saturday evening at Diamond Park 2 goals to 1, all three scores being made in the first half of play, when the Scots had all the best of the argument. In the second period the Sons bucked up some and gave the Blues a merry chase, and on several occasions had them guessing at their goal in danger.

Callies scored twice before the Reds got their tally, and it looked as if the game would be all Callies but the splendid combination and team work they displayed in the initial half faded with the sun in the second half and the Sons narrowly averted tieing the score on them, and the 1200 or more fans who saw the game enjoyed some exciting moments in the final play, although darkness prevented the play from going at its best.

Both the Callies' goals were scored by Tweedale, the first after 10 minutes' play and the second five minutes later. The Sons' goal came after eight minutes more play following a free kick at center, the ball going to Coward, who shot, but Parker caught the ball, dropped it only to have it slammed in by Ockenden with a short hot drive.

During the first period the Blues had all the best of it and on more than one occasion missed the goal by inches. Also in the early stages of the last half they had the Reds in hot water and but for brilliant work of Parker, who saved several dead-on shots, the score would have mounted up. The last 15 minutes of the game saw the Reds press their opponents and come within an ace of the goal several times, but the needed score to tie was not forthcoming, and the crowd mounted the steps to Jasper feeling that the Callies had won on their merits, according to the play. Referee Crosby lined the teams up as follows:

Caledonians—Goal, C. Parker; backs, Kinsman and Hunter; half backs, McPherson, W. Whitehead and Cowan; forwards, Collier, McLuckie, Tweedale, Dickie and Davidson.

Sons of England—Goal, E. Parker; backs, Gillespie and Morgan; half backs, Collingwood, Kelsall and Eastman; forwards, Bradford, Gregory, J. Clibbery, Ockenden and Coward.

## MAROONS STAY AS LEADERS IN NORTHERN LEAGUE

Winnipeg, July 20—The Winnipeg Maroons held their place at the top of the Northern league by downing Fargo-Moorhead in both games here Saturday, thus making a clean sweep of the series. Hitting when hits meant runs was the chief factor in the two victories, as both were hard-fought pitchers' battles, and not decided until the last man was retired. The afternoon score was 3 to 1 and the evening 4 to 3. House had his finger splintered in the afternoon affair from stopping a hard drive from Unglaub's bat.

Scores—

Afternoon game— R. H. E.

| | | | |
|---|---|---|---|
| Fargo | 100 000 000—1 | 6 | 1 |
| Winnipeg | 020 000 01x—3 | 6 | 2 |

Batteries — Ferris and Murphy; House and Bachant.

Evening game— R. H. E.

| | | | |
|---|---|---|---|
| Fargo | 000 101 001—3 | 9 | 1 |
| Winnipeg | 000 200 11x—4 | 8 | 1 |

Batteries—Scholl and Murphy; Shirley and Ellis.

### John Ross Robertson Cup

Winnipeg, July 20.—The Wanderers Cricket team of Winnipeg will defend the John Ross Robertson cup, championship of Canada, for the second time this season when they meet the Toronto cricketers on the home grounds July 30 and 31.

## WANDERERS BEAT NORTH EDMONTON

### By Narrow Margin of Six Runs in One of Best Games This Season.

On Saturday afternoon the Edmonton Wanderers met the North Edmonton eleven in their return league match. In the first game, played on May 16 last, North Edmonton won by 29 runs, but on Saturday they went down to defeat, though by but a small margin of 6 runs, in one of the most closely contested games yet played this season. The "form" altogether was really quite excellent, and it is a noticeable fact that North Edmonton took all their opponents' wickets, with the exception of one, on their fielding. This is really rather a remarkable performance, and serves as a good example of the importance of not only having a good batting side but also having a team that are keen in the field.

**Bailey Starts Well.**

Play commenced shortly after 2.30 p.m., under a hot sun, when the North Edmonton team went in to bat, opening with Williams and Bailey, the former of whom was bowled by Whitehouse after four overs only had been played. Bailey, however, although not a fast scorer, kept his wicket up for a considerable length of time, till he was bowled by Wilson, after having put up a well played 18. The Wanderers obtained a good lead to start with, as will be seen by the way the wickets fell, viz.: 1 for 6, 2 for 8, 3 for 27, and 4 for 35. After this, however, the North Edmonton batsmen made a rather firmer stand, until at 5 o'clock they were all out, with a total of 115 to their credit. This was a well-played innings, although there were quite a number of chances given, which, had they been taken advantage of by the Wanderers, would have considerably reduced their score. Of course, the Wanderers had the disadvantage of having to field during the hottest part of the afternoon, but the fielding of this team will need to be more up to the mark if they want to win the championship of the league this year, which they now have a good chance of doing. As the present standing of the various clubs will show the remaining matches of the season will depend, to a very great extent, on the fielding, as to which way they are decided.

**Jarman Made 14.**

After tea the Wanderers went in to bat, opening with Whitehouse and Jarman. The latter's wicket fell at the score of 28, of which he contributed a nicely played 14. The Wanderers soon showed that they were out to get the runs quickly, and ran everything that gave them the barest possibility of adding to the score. In fact, they perhaps overdid this a little, as they lost three wickets "run out." However, they had not much choice but to take a few risks, as they had not much time to top the North Edmonton score before stumps were to be drawn. N. Lee put up a good performance, amassing a total of 27 before he was caught by a magnificent catch in the long field by Woods, this being the first and only chance he gave.

**Excitement Prevailed.**

With 7 wickets down for 86, and about half an hour to play, the game began to get most exciting, and, in fact, to some of the Wanderers' team (especially the last man), even nerve-racking! The score was only mounting slowly by ones and twos till, with 8 wickets down for 100, Gasson joined Thorburn at the wicket, when these two stayed together till they had put another 16 on, thereby giving the Wanderers the victory by just one run, when Gasson was caught out, having contributed a well-played, and, to say the least of it, as well as Thorburn's score, most useful 10. The last wicket added another 4 runs to the total, till the whole team was retired for the aggregate of 121, Thorburn carrying his bat with a well-earned 18 to his credit.

Among the best scores were, for the Wanderers: N. Lee 27, Thorburn 13, Whitehouse 17, Jarman 14 and Gasson 10; while for North Edmonton were Bell 23, Thomlinson, 20, Bailey 18, and Merritt 16.

Following are the detailed scores:

**North Edmonton C.C.**

Williams, 5; Bailey, 18; Prendergast, 2; Merritt, 16; Robertson, 5; Bell, 23; Thomlinson, 20; Woods, 9; Argo, 5; Mainman, 4; Jones, 1; extras, 7; total 115.

**Edmonton Wanderers C.C.**

Whitehouse, 17; Jarman, 14; Wilson, 5; N. Lee, 27; Chalk, 4; Johnson, 4; D. Lee, 8; Thorburn, 18; Buckley, 1; Gasson, 10; Victor, 3; extras, 10; total, 121.

## ROSEDALE WINS SIXTH STRAIGHT FROM M. A. A. A.

Montreal, July 20.—The Rosedale lacrosse twelve had an excellent workout with the M. A. A. A. twelve at the Westmount grounds on Saturday afternoon and had little trouble winning their sixth straight game in the N. L. U. by 11 goals to 3. A crowd of about 1,500 spectators attended the game and while they were no doubt disappointed at the showing of the local players, the clever stick work of the Queen City aggregation was a treat to watch. The contest was cleanly played all through, the score never being close enough to warrant any rough work.

**McGoorty vs. Carpentier**

Sydney, N.S.W., July 20.—Eddie McGoorty, the American pugilist, has accepted the offer cabled him from London to fight Georges Carpentier in London in October for a purse of $10,000.

## OLD COUNTRY CRICKET

**Saturday's Games**

London, July 20.—At Tunbridge Wells, the home team, Kent, were defeated by Notts by the close margin of 37 runs. The feature of this match was the splendid bowling of Iremonger (J.) for Notts, who took six of the Hoppickers' wickets for 39 runs. For the winners, Gunn (G) made 51, and for the losers, Knott made 46.

Playing at Lords, Middlesex won from Essex by nine wickets. For Middlesex, Hearne (J.W.), 88, and Murrell, 40, not out, were the principal scorers, while for Essex, J. W. H. T. Douglas, 52 and P. Perrin, 55 were the most successful batsmen.

Hampshire, playing on their home ground at Southampton defeated Worcestershire by 8 wickets.

## TORONTOS AGAIN TRIM TECUMSEHS

### Spring, Former Coast Player, Plays Fine Game—Score 6 to 3.

Toronto, July 20.—With the line-up unchanged from that which had defeated the Tecumseh two out of three games this season, the Torontos again defeated the Indians at the Island Stadium Saturday afternoon by 6 to 3. The Tecumseh defence was unable to hold the speedy Toronto home and the first period closed with three runs for the blue shirts against a blank for the Indians. What was claimed as a goal by Querrie for the Tecumsehs was disallowed by the goal judge, the referee upholding the disallowal. Spring, for the Blue Shirts played a brilliant game, scoring four of the six goals. Gibbons' work in goal was again conspicuous. For the Tecumsehs Querrie, Carmichael and Durkin played fine lacrosse.

In the last quarter a dead set on Spring was made by the Tecumseh and Querrie, Graydon and Rountree, who was moved up on the home following the letting out of McDougall and McGregor, were all sent off in turn. There were several mix-ups, but the game was characterized by less roughness and fewer players were benched than during the previous game.

## RED SOX JUMP TO SECOND PLACE

### By Defeating the Bronks Twice Saturday, 7 to 0 and 11 to 3.

Regina, July 20.—Although there was no baseball here on Wednesday nine games were played during the week and by winning eight of them, the Red Sox moved up from fourth to second place in the league race. On Saturday the slaughter was continued at the expense of Calgary. Inability to hit Bottorff in the pinches resulted in the Bronks being blanked for the third time in succession in the afternoon. In the evening game, errors by Stis and Henry, with a passed ball gave the visitors a pair of runs on the first, and Vivian and Piper swatted over another in the second, but after that only one of the savages saw first base. Lennox's inexperience around the first station, where he is subbing for Streib, gave the Sox a chance to tie in the second, and after that there was nothing to it. Jack Smith drew four passes and scored four runs because Bill Henry Smith, who bats after him, was four times at bat and made four hits.

Besides this, the other Smith, Casey, slicked out four times to left fielder Reynolds. A fifth time Casey hit it far over Reynold's head.

First game—

| | | | |
|---|---|---|---|
| Calgary | 000 000 000—0 | 8 | 3 |
| Regina | 010 100 21x—7 | 11 | 2 |

Batteries—Frink and Weinholt; Bottorff and Netzel.

Second game—

| | | | |
|---|---|---|---|
| Calgary | 210 000 0— 3 | 3 | 7 |
| Regina | 030 340 1—11 | 19 | 2 |

Batteries—Loomis and Weinholt; Berger and Harris.

**Edmonton Beat Amateurs.**

By a score of 107 to 106 the Amateur Cricket club were defeated by the Edmonton cricket club Saturday. The following are the scores:

Amateurs C.C.—W. Dixon, 4; C. Parker, 0; A. E. Parker, 5; F. Parker, 4; S. Jennings, 49; L. Parker, 18; E. Buckingham, 8; E. Parker, 9; R. Parker, 8; J. Buckingham, not out, 0, Jaques, 0; extras 1. Total, 106.

Edmonton C.C. — A. H. Dickins, 4; E. H. T. Morse, 1; J. Tyldesley, 3; G. P. Bertenshaw, 19; A. J. Chambers, 26; W. D. P. Hardisty, not out, 35; G. R. P. Anderson, 0; R. V. Heathcote, 1; F. B. Tottle, 5; A. H. Petch, 2; L. Winslow, not out, 1; extras, 11. Total, 107.

## SATURDAY'S SCORES

**Strathconas Win**

In a cricket match Saturday on Victoria park the Strathcona Cricket club defeated the Dragoons by 32 runs, the total scores being 173 to 141. Play continued for about four hours, the total of 314 runs being made for the loss of 18 wickets. The score follows:

**Strathcona**

| | |
|---|---|
| W. R. Marshall, b. Healing | 0 |
| S. C. Locke, c. Perry, b. Hardisty | 72 |
| C. J. Van Velzen c., Weston, b. Hopkins | 26 |
| S. R. Tuffley, c. Weston, b. Weaver | 3 |
| W. L. Reid, c. Healing, b. Weaver | 18 |
| W. H. McMahon c. and b. Weaver | 6 |
| G. Leitch b. Weaver | 0 |
| J. McLeod, not out | 22 |
| C. J. Locke, c. Weaver, b. Healing | 19 |
| Extras | 8 |
| Total for 8 wickets | 175 |

**19th Alberta Dragoons**

| | |
|---|---|
| N. F. Weston, b. Tuffley | 8 |
| S. Alford, b. Tuffley | 7 |
| J. A. Crosby, b. McMahon | 2 |
| J. R. Healing, c. McLeod, b. Tuffley | 22 |
| C. Y. Weaver, not out | 48 |
| A. E. Hopkins, b. Tuffley | 11 |
| R. G. Hardisty, b. Tuffley | 12 |
| R. W. Drake, c. Reid, b. Tuffley | 4 |
| C. L. Perry, b. Tuffley | 10 |
| E. H. Shewell, b. Tuffley | 0 |
| W. Nicholls, b. Tuffley | 2 |
| Extras | 15 |
| Total | 141 |

## SAYS SMITH WAS KNOCKED OUT IN THE FOURTH ROUND

**London, July 20.—Sporting Life publishes today a "considered view" of all the disputed points in the Smith-Carpentier fight, in which Carpentier was awarded the decision on a foul.**

**It says that according to the official time-keeper Smith was knocked out in the fourth round, but declares this does not justify Carpentier in claiming a knockout, because, on account of Smith's deafness both men had agreed that Referee Corri should make the count that Smith was ready to rise after five seconds and was only awaiting the signal.**

**Westminster Beats Victoria.**

New Westminster, July 20.—In a regular Mann cup fixture here on Saturday the New Westminster team defeated Victoria by a score of 14 to 2. The visitors were outclassed. This victory gives New Westminster a commanding lead in the Pacific Coast championship series.

## RUSSELL PITCHED GRAND BALL FOR HURLEY'S QUAKERS

### Won His Game Against Millers 10 to 1 But Beer Lost His Game 5 to 3.

Moose Jaw, July 20.—The Millers could not get better than an even break against the Saskatoon Quakers on Saturday and although they won the first game 5 to 3, they dropped the second, 10 to 1.

The first game was a grand exhibition and one of the best seen here this year. Harrah was opposed by Bear and the fans were delighted when he got the best of the battle and won out. Both pitchers worked well and both had one bad session. All runs with one exception were scored in the fifth. Clean hitting secured a lead of one in the fourth while in their half Moose Jaw slammed Beer's offerings for three runs while the fourth was a gift on a miserable error by Chick who made an awful mess of Price's slow grounder and Million crossed the plate.

Both pitchers had fine control and but one man was issued free transportation. This was Beer, who drew a base on balls in the fifth and curiously enough, Harrah's pass of the opposing slabman started the big bunch of trouble for the Millers.

Lefty Russell was in great form at night. He had smoke to burn and his curve was breaking nicely. The Millers were helpless against his pitching and he allowed but six hits. On the other hand, the Quakers battered Peet's delivery to all corners. Lorenz featuring with a home run to left center which sent in two ahead. Whisman pitched the last four innings for Moose Jaw and did well.

Afternoon game— R H E

| | | | |
|---|---|---|---|
| Moose Jaw | 000 140 00x—5 | 7 | 1 |
| Saskatoon | 000 030 000—3 | 9 | 4 |

Batteries—Harrah and Wally; Beer and Walters.

Evening game— R H E

| | | | |
|---|---|---|---|
| Moose Jaw | 000 100 000—1 | 6 | 1 |
| Saskatoon | 020 060 101-10 | 11 | 1 |

Batteries — Peet, Whisman and Wally; Russell and Walters.

**20 Round Draw**

Melbourne, Australia, July 20.—The 20-round fight today between the American, Joe Welling and the Englishman "Sapper" O'Neil, ended in a draw

**P. A. makes men smoke hungry**

Just you get a whiff of "the international joy smoke" and it's dollars to dough-nuts *you* beat it 'cross lots to the nearest store that sells tobacco—*and stock up!* The flavor and aroma of Prince Albert has got 'em all backed off the boards. It sure will hit the spot with you—it does with more millions of men who smoke it in a pipe or cigarette *than any other pipe or cigarette tobacco.* Get the drift of that?

**PRINCE ALBERT**

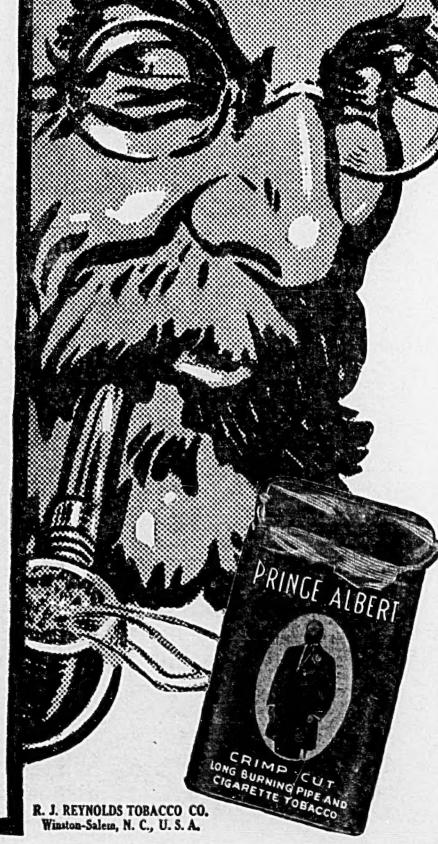

*the inter-national joy smoke*

Just does all that we say it will do. It *can't* bite your tongue and it *can't* parch your throat. All this is because P. A. is made by a patented process that *cuts out the bite!* Why, this process has simply revolutionized smoking tobacco.

Prince Albert rolls up the bulliest makin's cigarette you or any other man ever smoked. It puts the jolt of joy right into your system.

You can just do "makin's" sunrise to sunset and have a lot of fun. Why, P. A. in a cigarette is absolutely a revelation. *You go to it!*

*Prince Albert is the largest seller in the United States. It is now being imported into Canada by wholesale dealers and is sold by all of the leading retail dealers in one-eighth-pound tidy red tins.*

### FARMS FOR SALE

QUARTER SECTION FARM LAND, 12 miles west, Stony Plain, fenced, 40 acres under cultivation, good buildings, good water, school, store and post office close by. For further particulars apply 12002 94th St., or Phone Owner, 72356. S-A-A

320 ACRES, 60 IN CROP, 18 MILES from Edmonton, close to P.O. and school; good house and buildings, $20 an acre. Apply Box 45 Daily Capital. S-PT

WIDOW HAS ¼ SECTION 4 MILES from Grassy Lake, S.E. ¼ Section 36-10-13. First class land. Farms adjoining held at $20. Will discount this liberally for cash. Address R. W. Mapps, Ripon, Wis. S-PR

SECTION 21-49-11-4—11 MILES FROM Innisfree on the C.N.R., and 18 miles from Viking on the Grand Trunk Pacific. The Lloydminster-Revelstoke line of the C.P.R. will give a town much nearer than either of these. This land is on the shore of Lake Alice, a deep and pretty body of water giving this property a mile of lake front. The lake cuts into the section, leaving 394 acres of the possible 640. The entire 394 acres lays in a body, is all fenced and cross-fenced, has 110 acres broken, no waste land, level, high and dry, no stones, one and one-half miles from school, and has a strong flow of water both summer and winter from a living spring. Price $14.50 per acre. An important consideration is the fact that it is possible to secure a homestead within five miles of this land, thus making it possible to prove up on 160 acres free of cost without occupying other than the farm above listed. P. M. Benzanson, Benson Blk. Phone 1221. Alberta Homeseekers' Inv. Co. S-C

I HAVE ½ SECTION FARM LAND 60 miles from city, well improved, will trade for equity in house in Edmonton. Apply A. A. Howard, 31 Dominion Bank Bldg. Phone 6224.

FOR SALE—SPECIAL BARGAIN IN LAND. Have ¼ section of land 3 miles from Holden, description, S.E. ¼ 19-50-15-4. First class land, purchased under direction of land inspector; lands adjacent held at $16.00 per acre. Will sell at discount from above price. Dr. J. May, 4318 Gilbert St., Oakland, Cal. R-M

NOTICE—WILL TRADE TITLED FARM land city property for an automobile. We have clients for farm lands and solicit your listings. We want listings of Prince George property. Dagg & McNeely, 764 First street. Phone 6505. M-C

FARM FOR SALE—240 ACRES, 75 acres under cultivation, large pasture, all wire fenced; there is a large dwelling house, a frame stable and two granaries, good well; (farm is 2½ miles from city boundary); location unsurpassed. Apply to W. J. Richardson, 735 Tegler Block. Phone 1290; evenings 81971. E-T

### HORSES WANTED

# VESSELS PAY TOLL TO STORM ON THE COAST OF HALIFAX

## Two Steamers and Two Schooners Go on the Rocks, But Crews Are Saved.

## ITALIAN BARQUE TOTAL LOSS AT SHORT BEACH

### Coast of Nova Scotia is Swept by Gale and Squalls Place Shipping in Danger.

Halifax, July 20—Two steamers and two schooners were wrecked during the past 36 hours as the result of the heavy storm that swept over the coast. Fortunately there was no loss of life, all the crews reaching shore in safety, but some of them had a trying experience as thick fog prevailed.

The vessels were the Norwegian steamer Ragna, 1,052 tons, from Chester, Pa., to St. Anns, C.B., and she ran aground at Ballads, C.B., and the Cuban steamer Cienfuegos, 1,189 tons, struck at Scattarig, C.B., bound from Mobile, Ala., with a cargo of pine for Montreal.

The schooner Harold C. Beecher (American) also struck on Scattaric. She sailed from New York for Sydney.

The four masted American schooner Clarence Venner struck off Cape Sable, N.S. She was bound from New York for Halifax with 1,200 tons of hard coal.

All the vessels are in bad positions, and the prospects of floating them are slight.

The coast was swept by a gale of wind and heavy squalls. There was also thunder, lightning and rain.

Yarmouth, N.S., July 20—The Italian barque King Malcolm, Captain Mortola, bound from Portland, Maine, to Richibucto, N.B., in ballast, is a total loss at Short Beach, about seven miles from Yarmouth. She left Portland about noon Friday and struck at 6 o'clock Saturday morning. She was lightered. A strong flood tide and southerly gale taken in connection with the treacherous bay of Fundy currents, carried her off her course. At low tide she is high and dry. Her bottom is punctured in several places and she is partially full of water. A survey was held Sunday afternoon and an effort will be made to salve her. The King Malcolm is 1,600 tons and registers 1,300 tons. She is 28 years old.

## TENDERS

Office of Jas. A. MacKinnon, Official Assignee, Suite 706 Tegler Block, Edmonton, Alta., July 15, 1914.

**In the Matter of the Estate of George H. Robinson, Insolvent, Round Hill and Haight, Alta.**

## NOTED FRENCH BARON CONSIDERING GOING INTO FARMING HERE

Advices from Chicago, received by the Edmonton Industrial association this morning, are that Baron de Talsne, of Paris, captain of the 24th Dragoons of the French army, and Madame de Talsne, will come to Edmonton early next week to look the country over with a view to investing in lands for a ranch either near Edmonton or along the Peace River. They will pass several days at the ranch of Count Costa de Beauregard near Calgary. The baron and count are brothers-in-law, the latter being a nephew of the late Marquis de Beauregard of the French academy.

# MME. CAILLAUX A TIMID LOOKING FIGURE IN BLACK

## She Gives Her Name in a Voice So Low it Could Hardly Be Heard.

## PRECAUTIONS TAKEN TO PREVENT AN OUTBREAK

### Rumor Had It That Royalist Hotheads Would Create a Disturbance.

Paris, July 20.—Proceedings opening the trial of Mme. Caillaux for the murder on March 16 of Gaston Calmette, editor of the Figaro, started at noon today in the palace of justice with Judge Louis Albanel acting as president of the court.

The dramatic setting of the affairs involving political intrigues in which the prisoner's husband, a former French premier and minister of finance, was a prominent figure, has made the case a sensational one, and added to this was the rumor threat of royalist hotheads to create a disturbance during the trial and the extensive precautions taken by the government to prevent an outbreak.

Long before the opening of the palace of justice, crowds, defying the drizzling rain, had assembled in vicinity and special forces of police were called out to keep them in order.

As soon as the jurors, who had drawn by lot in a private room and the four extra ones choosing the court had taken their places, president Albanel called out loudly "bring in the accused."

Republican guards then opened a small door in the wall of the court room behind the bust of the Goddess of Liberty and Mme. Caillaux stepped out into the center of the tribune.

The strong light from the windows opposite seemed to startle the accused woman and make her hesitate on the threshold and reach out unsteadily to catch the arm of the republican guard standing at her right.

Mme. Caillaux then stood with her eyes downcast and her shoulders bent, a timid looking figure in black. Albanel said "What is your name?" Mme. Caillaux bowed up and her lips moved. The words "Geneva Calliaux" could scarcely be heard.

## IMPRESSIVE CEREMONY MARKS THE FUNERAL OF GEORGE MARSHALL

With impressive ceremony the funeral of George Marshall, who was the victim of accident in the Canadian Northern yards last Monday, was held yesterday afternoon at 2.30 o'clock. It was largely attended by members of the Orangemen, Eagles and other orders of which Mr. Marshall was a member, and by the numerous friends of the family who held him in high esteem. The floral offerings were many and beautiful, including a magnificent wreath from the Orangemen and a beautiful design as a token from the Fraternal Order of Eagles. The funeral was held from the family residence, 450 Syndicate avenue.

### Card of Thanks

Mrs. George Marshall and family wish to extend their heartfelt thanks for the sympathy and kindness shown them during their recent sad bereavement.

## CITY OF EDMONTON

### Notice of Proposed Local Improvements

Public Notice is hereby given pursuant to the provisions of the Edmonton Charter, that after the expiration of two weeks from the last publication of this notice (unless sixty per cent of the owners of the lands to be affected by each of the undermentioned works, representing at least one-half in value of the said lands petition the Council against the same), the Municipal Council of the City of Edmonton intends to undertake the under-mentioned works as local improvements, the whole of the cost of said works to be paid for by way of "special frontage assessment" upon all property fronting or abutting on said works respectively.

The proposed improvements are the construction of the following Temporary Plank Sidewalks.

| Side Street | From | To |
|---|---|---|
| E. 68th St. | 115th Ave. | 119th Ave. |
| W. 68th St. | 119th Ave. | 120th Ave. |
| E. 117th Ave. | 93rd St. | 97th St. |
| W. 71st St. | 112th Ave. | 114th Ave. |
| W. 88th St. | 114th Ave. | 115th Ave. |

Dated this 6th day of July, 1914.
(Sgd.) CHAS ED. K. COX,
City Clerk.

Date of last publication, July 20th, 1914.

# MURDER STORY AT LAC LA BICHE IS APPARENTLY TRUE

## James Rowan, Sentenced on Vagrancy Charge, is Now on Bail.

## APPEAL CASE WILL BE HEARD ON OCTOBER 27

### Little Doubt But That Hiram Johnson Was Slain in His Shack.

That there may be a great deal of truth in the report coming from the Lac La Biche district by James Rowan, secretary of the I. W. W. in Edmonton, that there had been a foul murder committed upon the person of a man named Hiram Johnson, in a shack in the north country, and found there by Rowan and another man, seems almost certain, according to reports from Athabasca Landing today, which give more facts and particulars in this connection.

It will be remembered that Rowan reported to the mounted police here that a man had been murdered. Rowan himself, was arrested on a charge of vagrancy and sentenced to serve six months at Fort Saskatchewan, which sentence is the maximum for the vagrancy charge.

He was on Saturday allowed on bail of $2,000, $1,000 supplied by himself and two sureties of $500 each by John Olson. Joseph Clarke is acting for Rowan, and after communicating with Magistrate Mills at Athabasca Landing, in whose court Rowan was sentenced, the amount of bail was set and Rowan freed from the barracks at Fort Saskatchewan, pending the appeal trial on October 27th, at Athabasca Landing, before Judge Noel. The case regarding the murder was investigated by the mounted police in the north and also by Dr. Joseph E. Olivier, a justice of the peace and district officer of health in that district, who reported that all things point to a crime of great brutality having been committed.

It is stated that the dead man Johnson was interested in some way with the work and progress of the I.W.W., and that he had received threats from half-breeds and others on account of his views on the I.W.W. question, and of these threats he told Rowan in letters to Edmonton. Following this news from Johnson, Rowan left for the Lac La Biche district, and in company with a man named Barrett, started on the inland, carrying with them a gun and ammunition for the purpose as they stated, for providing food on the way, and as protection against wild animals.

Reaching the shack on or about the night of the 4th of July they found the door locked, and later found Johnson's body lying dead on the floor in a stream of blood. There was an axe and a knife lying close to the body and the man's head was almost severed from his shoulders. At Colinton, some 40 miles south, they reported their discovery to the police, an investigation followed, and the date for an inquest set for July 28.

It is understood that Johnson was an American and was fired from the work on the A. & G. W. construction because of the effect his I.W.W. views caused. It is also stated that because of these views Johnson became unpopular and the people resented his agitation. This homestead was in a lonely community about one mile from Egg Lake. His shack presented a desolate appearance, having none of the usual comforts about it. But a small portion of his homestead was broken, and this for garden stuff. When found, Johnson was lying flat on his back, the axe between his legs and the knife lying at some distance. Both were smeared with blood.

# SCOTCH FARMERS TO SETTLE HERE

## A. W. Fleming of Leith Arrives to Choose Location in North.

## COLONY OF 12 COMING

### Many Others Ready to Leave Land of Heather for Sunny Alberta.

As an advance agent for a colony of Scotch farmers, A. W. Fleming, of Leith, Scotland, is now in the city. He will leave for the north tomorrow and expects to be able to pick a good location for 11 farmers and their wives besides himself, who will probably come out from Scotland early next year.

These men are all practical agricultural men being specialists in mixed farming and dairying. Mr. Fleming stated this morning at the Royal George hotel that should this group find things as they expected, many other farmers from the same district would no doubt soon follow them to Sunny Alberta.

He believes himself that this province presents wonderful opportunities for the farmers of the old country and thinks that more attention should be given to bringing agriculturists out than mechanics and laborers.

### Building Permits

The following building permits were issued this morning: C. M. Freeze, dwelling house to cost $2,000 on 116th avenue; G. Goliswski, dwelling house to cost $1,500 on Otter avenue and Nick Cozak, addition to cost $500.

# BELIEVES TEDDY AND HIRAM WILL BE 1916 WINNERS

## U.S. Progressives to Absorb G.O.P., Thinks Author-Promoter.

## FREE TRADE IN TIME MUST RULE ON EARTH

### G.T.P. Route West of City is Setting for His Only Novel.

Those who have read in the Edmonton newspapers of the last few days that one of the representatives of the American engineering firm, which is putting a power proposition before the city council, is Stanley Washburn, perhaps much better known as an author than as a power scheme promoter.

But he is, nevertheless. Not only is he an author, writer and publicist of considerable fame, but the only novel he ever wrote has one of the countries at the back of Edmonton as its setting—the Athabasca trail, which has more recently moved no less a writer than Sir Arthur Conan Doyle to poetic expression.

Mr. Washburn's book is "Two in the Wilderness," which was reviewed by the Capital a few weeks ago, and the scenes of the story are laid along what is now the route of the Grand Trunk Pacific between here and Prince George.

In the preface of this charming book the address of the author is given as Minneapolis, which would at once lead those who know much about that city to believe that Mr. Washburn was connected with some corporation or other which both the city of Minneapolis and the name Washburn are woven. Although he is not a flour miller himself, he is, however, related to the Washburns who helped to make Minneapolis the "Flour City."

Mr. Washburn took an active part in the 1912 presidential election in the United States. He worked for Roosevelt and Johnson, traveling personally with both the progressive candidates through a part of their campaign.

"I believe that the next president and vice-president of the United States will be Theodore Roosevelt and Hiram Johnson, respectively," he stated in the King Edward hotel.

"The factions of the republican party cannot hope to win against the democrats in 1916, and I believe they will join together. Then it is only a question of which section they will fight under, and, as the progressives polled a larger vote in 1912 than the old-line republicans, there will be nothing to do but flock to Roosevelt and Johnson, if victory is to come."

Mr. Washburn is well posted on American politics, having been for years a newspaper man before going actively into politics. He can tell off hand how almost every state in the union went in 1912, which states were represented at the nominating convention of the republican party of Taft or Roosevelt men and he can name some states which did not have Roosevelt men at the convention, because the delegates were ruled out, but which were carried by the progressives against both the democrats and republicans.

Although Mr. Washburn is a progressive now and was a republican before, he admits that theoretically the free trader is right and that there may come a time when all nations will have no barriers to trade. However, he contends that revision of the tariffs must come gradually, but they must come.

While traveling through Alberta and British Columbia, Mr. Washburn became interested in the natural resources of the country, and specifically in the Moose River power proposition, which is now before the city of Edmonton.

### Sergt. McInnis at Bisley

For the Prince of Wales prize today, Sergt. McInnis of Edmonton made a score of 98. This competition calls for seven shots at 800 yards. In the Alexandra competition McInnis made a 52 score, which was among the highest. This shoot calls for seven shots at 200 yards, and is an all-Canadian event.

### Picnic To Be Later.

At a recent meeting of the executive of the Western Ontario association, it was decided to hold the grand annual picnic this year at a later date than in previous years—probably early in September. All Ontario people are advised to plan for the grand annual outdoor fete of this progressive association.

## LARGE AUTOMOBILE PARTY IS ON WAY TO LOOK ALBERTA OVER

H. J. Laymance and party, including George Hensel, James English, J. C. Brennenstuhl, William McKay and Anthony and John Gritsch and their families, are on the way from Waterville, Wash., to Edmonton in a fleet of seven automobiles, according to letters received this morning by the Edmonton Industrial association. They left Waterville on July 13, and should arrive in this city some time this week. They will visit relatives and friends in various parts of Alberta and British Columbia, also looking over the farming districts.

# CHALMERS SUBMITS LENGTHY REPORT ON POWER OFFER

(Continued.)

in the company, and if such be acquired, the city to be represented on the directorate of the company.

13. That the city of Edmonton have prior claim to all power development, and that no power be sold to other parties at a less price than to the city of Edmonton.

14. That when the annual amount of power used by the city is less than the smallest amount stated in bid submitted, the price shall be the same as that stated for the smallest amount mentioned, and the city shall pay only for such power as may be actually used. That prices submitted be on a straight kw. hr. basis, regardless of load factor and that the successive steps in schedule of rates be not cumulative, but that each unit price apply to total consumed from zero to total against which unit price applies.

15. That the company construct, equip and operate at their expense such transformer station or stations at or within the city limits as may be determined, to deliver on the city switchboard all current, at either 2300, 6600 or 13,000 volts concurrently if so required.

14 That the bidders state the time they are prepared to guarantee delivery of current in the city from the time of passing of bylaw by the burgesses.

16. That when the interruptions exceed that agreed upon as to number, extend and frequency, the contract and all that it implies may, at the option of the city council, be immediately cancelled.

16. That if, prior to determination of the agreement, improvements or discoveries be proved to competent authority, whereby electric energy can be manufactured at less cost than by present known and adopted commercial methods, the company shall adopt such improvements, or, if such improvements be not adopted, the city shall, in any event, receive the benefit in a manner to be determined as between the parties previously established, and what the rates may be consequent to such discoveries or improvements.

## BLACKLEG CAUSES CATTLE LOSSES IN SOUTHERN ALBERTA

W. H. Stevens, live stock commissioner for the province, and Dr. Percy Talbot, provincial veterinarian, have just returned from the south.

Mr. Stevens stated that while blackleg was not prevalent in southern Alberta as to warrant the description of an epidemic, it was causing considerable loss in isolated districts. Mr. Stevens added the farmers to vaccinate their cattle, as the use of vaccine had been proved to be a preventative of the disease. Vaccine can be had free of charge from government agents or the provincial government's demonstration farms for the small cost of five cents per dose. "There is therefore no excuse for not vaccinating" said Mr. Stevens. Once the cattle have contracted the disease there is no cure and the cattle die in a very short time. The germs of the disease live in the ground for four years, so that there was no surety that a district having once had an outbreak of the disease was immune.

### Fire Causes Idleness.

Ottawa, July 20.—Damage to the extent of $25,000 was caused by an explosion and five in the Hull plant of the Canada Cement company yesterday day afternoon. The explosion occurred in the coal sheds, causing fire which spread to the drier room and then to the grinders. Valuable machinery was destroyed. About 300 men will be thrown out of work for two months.

### Fatal Accident.

Brandon, July 20.—Three men were badly injured internally, and about six less seriously hurt, when one passenger and three baggage cars of a C.N.R. special jumped the track and were turned completely over.

# LITTLE IMMEDIATE FEAR OF DRASTIC ACTION BY CARMEN

## Vote to Strike is Reported to Have Been Taken But No Notice is Served City.

## VIEW EXPRESSED BY COMMISSIONER CHALMERS

### Situation Probably Will Be Taken Up By Organizer at Early Date.

No official notice has yet been served on John Chalmers, commissioner of operation, concerning the rumored action of the street railway employees in declaring a strike. At a special meeting of the railway men last Sunday a secret vote was taken and it resulted in 190 declaring in favor of strike and 40 against such action.

It is understood that the grievance of the street car men arises over the fact that two inspectors are holding positions without having been appointed from the seniority list, and that they insist on the removal of these inspectors and appointments according to agreement which they claim exists between the employees and the city.

While it is admitted that the two inspectors to which objection is made, were not appointed from the seniority list, it is maintained by Mr. Chalmers that the appointments were made by a former administration and that the men show every qualification to fill the position. It is maintained by Mr. Chalmers that the commissioners are the best judges of ability and efficiency in employees, and that it is therefore not in the good of the city that the present inspectors be dismissed.

No immediate trouble is feared and there is little danger that the street railway will be tied up. The action of the employees last Sunday, in declaring in favor of a strike, must first be submitted to the head organization or international body, and it is probable that an organizer will be sent to Edmonton to confer with both sides and arbitrate the matter if possible.

## MONSTER PICNIC OF CATHOLICS FOR CIVIC HOLIDAY

A monster picnic will be held on Monday (Civic Holiday) at Victoria Park, old golf links, by the Catholics of Edmonton, under the auspices of the Knights of Columbus. The Knights intend to make this the biggest thing of its kind ever held in this city, and they have promised keen competition from a host of Catholics in the city. There will be entertainment for everyone under nine and over 90, starting with an exciting baseball games between the Bulletin and the K.C.'s, and there will be all kinds of athletic games, for which the following merchants have generously donated prizes: Marshall-Wells Alberta Ltd., Fleming-Hay Co., Ltd., Adams Bros. Harness Co., Ltd., P. Burns & Co., Ltd., Campbell, Wilson & Horne, Ltd., J. H. Boyd, Ames, Holden & McCready Ltd., G. C. Brush, Leach & Co., T. Gillis, T. P. Malone, Crowe Bros., Connell & Grigg, Wilson Ltd., Palace Meat Market, A. R. Chisholm, Chas. Hepburn, Capital Barber Shop, Edmonton Cycle Store, Stanley & Jackson, J. E. Clark, Peter Germin, J. J. Gourlay, Ash Bros., McGill & Driscoll, Hart Bros., The Larose Co., Louis Levesque, Jasper Liquor Co., Dechene & McNeil Ltd., Young & Kennedy, J. J. Murray, Parisian Dye Works.

The children will be conveyed to the picnic grounds in automobiles which will be loaded by the following citizens: T. P. Malone, James Ryan, J. H. Lavallee, J. J. Murray, T. Kelly, H. Milton Martin, S. Larue, D. J. Gilmurray, Bard Ave. Bros., A. E. Hinton, E. Lessard, Hon. Wilfrid Gariepy, Elite Lloyd, E. C. Barry, R. F. Gaboury, J. E. McCarthy, Arthur Robitaille.

A band will be in attendance all day and a big time is looked for.

### Travelers Taking Orchestra.

Collins' orchestra has been engaged to accompany the commercial travelers on their picnic to Wabamun, July 23.

## COMPANY NOTICE

### THE PIONEER FIRE CLAY COMPANY, LIMITED

Notice is hereby given that the above named Company is issuing a Prospectus inviting subscriptions for 250,000 shares of one dollar each at the price of $1.00.

The Prospectus states among other things that the Authorized Capital is $500,000, divided into 500,000 shares of one dollar each.

There is no liability beyond one dollar per share.

The Company has been formed to manufacture pottery goods of all descriptions, from the deposits of clays and shales found in the vicinity of Edmonton.

This is the Pioneer Company and it asks the support of every person in Edmonton and district in particular to become part owners in this local industry by subscribing for shares.

The lists are now open and application for shares may be made in the Business forthwith.

Prospectuses and Application Forms for shares may be obtained now from the Bank of British North America, corner of First Street and Jasper; Messrs. McDonald & Tighe, Solicitors, Imperial Bank Building; E. Dalby, Esq., Auditor, Dagler Building; Room 7, Bradburn-Dunnell Building, 1st Street, and all authorized agents.

# VALUABLE PRIZES FOR HORSES AT SUMMER EXHIBIT

### Outside Associations Offer Big Money Prizes in Special Classes.

### MERCHANTS' BANK PRIZE GENERAL PURPOSE HORSE

### Efforts to Encourage a High Standard of Horses in Province.

With the date for closing of entries close at hand, interests are studying the 1914 prize list to find out what the Exhibition association has arranged for them in the way of classes and prizes.

The Exhibition association is not alone in its efforts to encourage a high standard of horses in Alberta.

Generous prizes are offered by the association for all classes of horses from the diminutive pony to the standard, well sizing, thoroughbred, and on the whole the classes of Percherons, Clydesdales, etc.

In addition many fine special prizes have been donated for competition by private individuals, breeders' associations, public firms, etc.

The Imperial Bank of Canada, through its Edmonton manager, G. R. D. Kirkpatrick, is offering a silver cup for the best thoroughbred stallion, two years old or over, to be competed for at the midsummer exhibition.

For best pair of mares and fillings, foaled, the property of a man engaged continuously in farming, driven by owner or owner's son, S. H. Smith, Edmonton, has donated the first prize a silver challenge cup valued at $100.

The Merchants' Bank of Canada, A. Seither, manager, gives $25.00 first prize for pair of general purpose horses in harness attached to carriage or vehicle. For best farm team attached to wagon, to be judged on Farmers' Day at 3 p.m., the Union Bank of Canada is offering $25.00.

Three hundred and two dollars in cash is offered in special prizes by the Clydesdale Horse association, of Toronto, for Clydesdales. Two gold medals and two silver medals are donated in the horticulture committees by the Hackney Horse society of London, England.

Yan Percherons, the Canadian Percheron Horse Breeders' association is offering five trophies valued each at $50.00. The Northern Society of America offers prizes of money to the amount of $50.00, as well as gold and silver medals for the same breed of horses.

The Canadian Shire association is offering prizes amounting to $20.00 for best pair of Shire mares or fillies owned by any exhibitor. The Canadian Pony society offers silver medals for best Shetland pony and best pony of any other breed.

Two prizes of $25.00 each are offered by the Canadian Standard Bred Horse society in the standard bred class.

## WANTED IN STATES ON A CHARGE OF ATTEMPTED MURDER

Douglas Rowe, a millerite, was arrested on the south side Saturday evening by Detectives Criswell and Shaw on information received by the police from Dallas, Oklahoma, stating that Rowe was wanted in the American city on a charge of attempted murder, having shot Detective E. Rice on the police force in that city. The police have received a small picture of Rowe, and in four hours the man wanted was under arrest and in the south side police station, speaking well for the quick work done by the detectives who had nothing more than a small picture of their man to work on. Later information from Dallas stated that Rowe had a peculiar mark on one of his arms and this was located by the detectives when Rowe was stripped.

Rowe refused to return to Dallas voluntarily but proceedings were soon under way for his return and a message received this morning by Chief Hill stated that the sheriff of Dallas or on his way to get his man. In the meantime Rowe will remain in custody under special watch. He was taken to the police station Saturday on the pretence that some of the force wanted their clothes pressed, and as Rowe was engaged by their business on the south side he never suspected anything wrong until he arrived at the station.

### Special Wint Parade.

There will be a special parade of "Wint" company of the 101st Regiment Edmonton Fusiliers, on Tuesday, July 21, when all members of the company are warned to attend, in preparation for the visit of H.R.H. the governor-general on Monday, July 27, and also in view every man a chance to put in the required number of drills for the season.

## NOTICE

Office of Jas. S. Sackinnon,
Suite 5, Alberta Block,
Edmonton, Alta., July 9th, 1914.

**In the Matter of the Estate of Sylvester L. Young, Edmonton, Alta.**

Notice is hereby given that all accounts outstanding against the estate of Sylvester L. Young, who has disposed of the business lately carried on by him in the City of Edmonton, according to the provisions of the Bulk Sales Act, must be rendered to me, accompanied by Statutory Declaration, on or before the 10th day of August, A.D. 1914, after which date I will distribute the assets, thereof, having regard to those claims only of which I then have received notice.

The creditors are notified to meet at my office, Suite 5, Alberta Block, Edmonton, at eleven o'clock in the morning of Friday, the twenty-fourth day of July, A.D. 1914.

Jas. S. SACKINNON,
Official Assignee.

## WOMAN CLAIMS MAN FOUND WAS HER OWN HUSBAND

Although it is now two weeks since the body of a man was found in the river with his throat cut, positive identity has not yet been made, although one woman, Mrs. Niland, at Rodney Centre, some 40 miles northeast of the city, claims that the man was her husband, having identified him from a picture sent to her by the mounted police here. The carrying of this, however, is not established, as Mrs. Niland states that her husband was last seen alive on July 3rd, whereas the doctors state that the body of the man found in the river, had been in the water at least six days, judging from the advanced state of decomposition it was in when found, and this would make the dates conflicting, and from this fact also would it be very difficult according to the mounted police for the woman to be sure that the man in the picture was her husband, as the features of the dead man were un-natural, but the woman feels sure it is the same, although she cannot identify the clothes sent her, nor the bunch of keys found in the clothing.

Another clue being followed by the police is that of a white, saddle and other horse goods, which were left in Drury barn in the city and which were left according to the men there, by the man whose picture the police took of the dead man, and there has been established a connection between this man of the Drury stable and the one from Rodney Centre, although, the identity of the man still remains a mystery, and the case unsolved as before. The belief that the man came to his death by his own hand, a suicidal act, is held by the police, but the matter of his identity promises fair.

## CONSTANT USE MORPHINE KILLS WILLIAM LA PRAEK

William La Praek, a notable character, and one well-known among followers of the race track, was on Saturday night found dead in his room at the Alexander rooms, 9044 Kinistino avenue, having died from the effects of an overdose of morphine, according to the statement of Coroner Ferris, who, in company with deputy and Brydon and inspector Shute, visited the body immediately following the discovery.

The first intimation of there being anything wrong in the man's room was the hearing by one of the chambermaids of groans, and S. S. Sigsmith, manager of the rooms, broke into the room at 8.45 and there found La Praek lying dead on the bed. In his possession were found quantities of cocaine and morphine, such quantities in fact that have led the police to believe that La Praek may have been selling the drug to other users about the city. Besides several quarts of liquozone needles, syringes, etc., was cocaine in bottles, packages, tins, bottles, papers, capsules and envelopes.

La Praek arrived in Edmonton at the spring races here on May 24th, and was known to all followers of the game as a drug fiend, but not a criminal. It is said his wife is at present living in Chicago. The body was removed to Connelly and McKinley's undertaking parlors, but no inquest will be held. The police have charge of the drug found in the man's possession, and it will be destroyed.

## COMMITS SUICIDE BY HANGING IN A SOUTH SIDE SHACK

Frank Rees, a foreigner, was on Saturday found dead in a shack about eight miles south of the city on the Wye road having committed suicide by hanging. An ordinary cotton clothesline had been used for the purpose, having been thrown over a cross-bar at the top of the tent, and the body was lying on the bed with the head of the man raised about 12 inches above the rest of the body. Superintendent Winnington of the mounted police was at once notified by his men who had made the discovery, and in company with Coroner Ferris made the trip to the spot and decided that it was purely a case of suicide, and the man had apparently been dead for some time.

Rees had been employed by August Vanderlinden and Chumbley to go out and build a shack, on the subdivision called Eastview. Deceased was about 30 years old and was five feet, seven inches tall. No reason for his act can be given and there was nothing on the body to indicate any such intention, although a letter found in the man's pocket, with a Bingar, Saskatchewan, post mark, was sent to his identity more clearly and the hearing of relatives or friends.

## COLLINS' CONCERT ORCHESTRA GIVES SPLENDID CONCERT

At the east end park yesterday about 2,000 people listened to a program of music played by Collins' Concert orchestra. The program throughout was of a high standard and, judging from the applause given, each succeeding number was greatly appreciated. Bugler Morris sang in beautiful voice "The Lost Chord" and had to respond to an encore. The Star of India, an Oriental number was well rendered and the various imitations were cleverly executed by the drummer of this organization, the clarinet also excelling. The selection Russians from the famous opera is also worthy of mention, the orchestra working well together and in good time.

### Trail to Lead Steps.

A treasure reported from Grouard that the mountain on the shore of Peace River trail is at present in fine condition for travel, the former wet and low places on the trail having dried up, making the route better than it has been for some time. The only bad spot is at the bay at Grouard, but this being such a small area, means no difficulty to the traveller.

DURING JULY AND AUGUST, AS IN JUNE, STORE CLOSES WEDNESDAY AT 1 P. M.

With the date for closing of entries close at hand, horsemen are studying the 1914 prize list to find out what the Exhibition Association has provided for them in the way of classes and prizes.

The Exhibition association is not alone in its effort to encourage a high standard of horses in Alberta.

Generous prizes are offered by the association for all classes of horses from the diminutive pony to the standard, high strung, thoroughbred, and on to the heavier classes of Percherons Clydesdales, etc.

In addition many fine special prizes have been donated for competition by private individuals, breeders' associations, public firms, etc.

The Imperial Bank of Canada, through its Edmonton manager, G. R. F. Kirkpatrick, is offering a silver cup for the best thoroughbred stallion, two years old or over, to be competed for at the midsummer exhibition.

For best pair of mares and geldings, grades, the property of a man engaged exclusively in farming, driven by owner or owner's son, S. H. Smith, Edmonton, has donated as first prize a silver challenged cup valued at $100.

The Merchants' Bank of Canada, A Belcher, manager, gives $25.00 first prize for pair of general purpose horses in harness attached to carriage or wagon. For best farm team attached to vehicle, to be judged on Farmers' Day at 3 p.m., the Union Bank of Canada is offering $15.00.

Three hundred and ten dollars in cash is offered in special prizes by the Clydesdale Horse association of Toronto, for Clydesdales. Two gold medals and two silver medals are donated in the hackney competitions by the Hackney Horse society of London, England.

For Percherons, the Canadian Percheron Horse Breeders' association is offering five trophies valued each at $50.00. The Percheron Society of America offers prizes of money to the amount of $50.00, as well as gold and silver medals for the same breed of horses.

The Canadian Shire association is offering prizes amounting to $20.00 for best pair of Shire mares or fillies owned by any exhibitor. The Canadian Pony society offers silver medals for best Shetland pony and best pony of any other breed.

Two prizes of $25.00 each are offered by the Canadian Standard Bred Horse society in the standard bred class.

## WANTED IN STATES ON A CHARGE OF ATTEMPTED MURDER

Douglas Rowe, a mulatto, was arrested on the south side Saturday evening by Detectives Ottewell and Shaw on information received by the police from Tusla, Oklahoma, stating that Rowe was wanted in the American city on a charge of attempted murder, having shot Detective E Rice on the police force in that city. The police here received a small picture of Rowe, and in four hours the man wanted was under arrest and in the south side police station, speaking well for the quick work done by the detectives who had nothing more than a small picture of their man to work on. Later information from Tusla stated that Rowe had a peculiar mark on one of his arms and this was located by the detectives when Rowe was stripped.

Rowe refused to return to Tusla voluntarily but proceedings were soon under way for his return and a message received this morning by Chief Hill stated that the sheriff of Tusla is on his way to get his man. In the meantime Rowe will remain in custody, under careful watch. He was taken to the police station Saturday on the pretence that some of the force wanted their clothes pressed, and as Rowe was engaged in that business on the south side he never suspected anything wrong until he arrived at the station.

**Special 101st Parade.**

There will be a special parade of "G" company of the 101st Regiment Edmonton Fusiliers, on Tuesday, July 21, when all members of the company are warned to attend in preparation for the visit of H.R.H. the governor-general on Monday, July 27, and also to give every man a chance to put in the required number of drills for the season.

## NOTICE

Office of Jas. A. MacKinnon,
Suite 706 Tegler Block,
Edmonton, Alta., July 16, 1914.

**In the Matter of the Estate of Aylmour D. Young, Edmonton, Alta.**

Notice is hereby given that all accounts outstanding against the estate of Aylmour D. Young, who has disposed of the business lately carried on by him, in the City of Edmonton, according to the provisions of the Bulk Sales Act, must be forwarded to me, accompanied by Statutory Declaration, on or before the Thirty-first day of August, A.D. 1914, after which date I will distribute the assets thereof, having regard to those claims only of which I then have received notice.

The creditors are notified to meet at my office, Suite 706 Tegler Block, Edmonton, at eleven o'clock in the morning of Friday, the Twenty-fourth day of July, A.D. 1914.

JAS. A. MacKINNON,
Official Assignee.

## WOMAN CLAIMS MAN FOUND WAS HER OWN HUSBAND

Although it is now two weeks since the body of a man was found in the river with his throat cut, positive identity has not yet been made, although one woman, Mrs. Niland, of Hadway Centre, some 60 miles northeast of the city, claims that the man was her husband, having identified him from a picture sent to her by the mounted police here. The certainty of this, however, is not established, as Mrs. Niland states that her husband was last seen alive on July 3rd, whereas the doctors state that the body of the man found in the river, had been in the water at least six days, judging from the advanced state of decomposition it was in when found, and this would make the dates conflicting, and from this fact also would it be very difficult according to the mounted police for the woman to be sure that the man in the picture was her husband, as the features of the dead man were un-natural, but the woman feels sure it is the same, although she cannot identify the clothes sent her, nor the bunch of keys found in the clothing.

Another clue being followed by the police is that of a whip, saddle and other horse goods, which were left in a livery barn in the city and which were left, according to the men there, by the man whose picture the police took of the dead man, and there has been established a connection between this man at the livery stable and the one from Hadway Centre, although the identity of the man still remains a mystery, and the case unsolved as before. The belief that the man came to his death by his own hand is a suicidal act, is held by the police, but the matter of his identity premises delay.

## CONSTANT USE MORPHINE KILLS WILLIAM LA PRAEK

William La Praek, a notable character, and one well-known among followers of the race track, was on Saturday night found dead in his room at the Alexander rooms, 10350 Kinistino avenue, having died from the effects of an overdose of morphine, according to the statement of Coroner Forin, who, in company with deputy chief Bruten and inspector Shute, visited the body immediately following the discovery.

The first intimation of there being anything wrong in the man's room was the hearing by one of the chambermaids of groans, and S. B. Haycock, manager of the rooms, broke into the room at 8.45 and there found La Praek lying dead on the bed. In his possession were found quantities of cocaine and morphine, such quantities in fact that have led the police to believe that La Praek may have been selling the drug to other users about the city. Besides several outfits of hypodermic needles, syringes, etc., was cocaine in boxes, packages, tins, bottles, papers, cartons and envelopes.

La Praek was prominent at the spring races here on May 24th, and was known to all followers of the game as a dope fiend, but not a criminal. It is said his wife is at present living in Chicago. The body was removed to Connelly and McKinley's undertaking parlors, but no inquest will be held. The police have charge of the drug found in the man's possession, and it will be destroyed.

## COMMITS SUICIDE BY HANGING IN A SOUTH SIDE SHACK

Frank Rece, a foreigner, was on Saturday found dead in a shack about eight miles east of the city on the Wye road, having committed suicide by hanging. An ordinary cotton clothesline had been used for the purpose, having been thrown over a cross-bar at the top of the tent, and the body was lying on the bed with the head of the man raised about 12 inches above the rest of the body. Superintendent Wroughton of the mounted police was at once notified by his men who had made the discovery, and in company with Coroner Forin made the trip to the spot and decided that it was purely a case of suicide, and the man had apparently been dead for some time.

Rece had been employed by August Vanderbroek on Thursday to go out and build a shack, on the subdivision called Eastdene. Deceased was about 30 years old and was five feet, seven inches tall. No reason for his act can be given and there was nothing on the body to indicate any such intention, although a letter found in the man's pocket with a Regar, Saskatchewan, post mark, may lead to his identity more clearly and the locating of relatives or friends.

## COLLINS' CONCERT ORCHESTRA GIVES SPLENDID CONCERT

At the east end park yesterday about 2,000 people listened to a program of music played by Collins' Concert orchestra. The program throughout was of a high standard and, judging from the applause given, each succeeding number was greatly appreciated. Hayden Morris sang in beautiful voice the Lost Chord and had to respond to an encore. The Star of India, an Oriental number was well rendered and the various imitations were cleverly manipulated by the drummer of this organization, the clarinet also excelling. The selection Rigoletto from the famous opera is also worthy of mention, the orchestra working well together and in good time.

**Trail in Good Shape.**

A message received from Grouard this morning states that the Grouard, Peace River trail is at present in fine condition for travel, the former wet and low places on the trail having dried up, making the route better than it has been for some time. The only bad spot is at the bay at Grouard, but this being such a small area, means no difficulty to the traveller.

## COMPANY NOTICE

### THE PIONEER FIRE CLAY COMPANY, LIMITED

Notice is hereby given that the above named Company is issuing a Prospectus inviting subscriptions for 120,000 shares of one dollar each at the price of $1.00.
